## MONTANA (WESTERN COUNTIES)

The applicable rate on a lot of wheat in the following counties of Western Montana shall be determined as follows:

1. Subtract all applicable discounts from the rate based on Minneapolis and from the rate based on Portland.
2. If 10 percent or more protein is shown, add the Minneapolis protein premium, if any, derived from the protein schedule shown in subsection (a) of section 251.126 to the rate based on Minneapolis; then add the Portland protein premium derived from the same schedule to the rate based on Portland.
3. The rate on the lot of wheat will be the highest rate as determined above.

# PART 251—WHEAT LOANS AND PURCHASE AGREEMENTS 1947 WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM (PORTLAND AREA)

Pursuant to the provisions of Article Third, paragraphs (b) and (j) of the Corporate Charter of Commodity Credit Corporation; sec. 7 (a), 49 Stat. 4 as amended, sec. 8, 56 Stat. 767 as amended; 15 U. S. C. Sup., 713 (a), 50 U. S. C. App., Sup., 968, Commodity Credit Corporation and the Production and Marketing Administration have issued, in 1947 C. C. C. Wheat Bulletin 1 and Supplement 1 thereto (12 F. R. 4167, 4257), regulations governing the making of loans and purchase agreements on wheat produced in 1947, and listing the rates applicable to wheat in eligible warehouse storage at designated terminal markets. Such regulations are hereby further supplemented as follows:

§ 251.130 *Station rates, discounts, and premiums (Portland area)—(a) Schedule of rates.* The 1947 wheat loan and purchase rates listed herein for stations in the Portland area are determined and established in accordance with the provisions of paragraph (b) of § 251.126 (1947 C. C. C. Wheat Bulletin 1, Supplement 1). The rates per bushel on No. 1 dark hard winter, No. 1 hard winter, No. 1 yellow hard winter, No. 1 red winter, No. 1 western red, No. 1 soft white, No. 1 white club, No. 1 western white, No. 1 hard white, No. 1 heavy dark northern spring, No. 1 heavy northern spring, No. 1 heavy red spring, No. 1 hard amber durum, No. 1 amber durum, and No. 1 durum shall be as follows:

**AUTHORITY:** §§ 264.101 to 264.124, inclusive, issued pursuant to Article Third, par. (b) of Corporate Charter of Commodity Credit Corporation; sec. 7 (a), 49 Stat. 4 as amended, sec. 302 (a), 52 Stat. 48, as amended, sec. 4 (b) 55 Stat. 498, 56 Stat. 768; 15 U. S. C., and Sup., 713 (a), 713a-3 (b), 7 U. S. C. 1302 (a).

§ 264.101 *Administration.* The program will be administered in the field by the county agricultural conservation committees under the general supervision of the State PMA Committee.

Forms may be obtained from county committees in areas where loans and pur-

chase agreements are available, or from other field offices of PMA. County committees will determine or cause to be determined the quantity and grade of the barley, the amount of the loan, and the value of the barley delivered under a loan or purchase agreement. All purchase and loan documents will be completed and approved by the county committee, which will retain copies of all such documents. The county committee may designate in writing certain employees of the county agricultural conservation association to approve forms on behalf of the committee.

The county committee will furnish the borrower with the names of local lending agencies approved for making disbursements on loan documents or with the address of the CCC field office to which loan documents may be forwarded for disbursement.

§ 264.102 *Availability of loans and purchase agreements—(a) Area.* (1) Loans shall be available on eligible barley stored on farms in the States and counties for which loan rates are shown in § 264.124.

(2) Loans shall be available on eligible barley stored in approved public grain warehouses in all areas.

(3) Purchase agreements shall be available on eligible barley in all areas where loans are available.

(b) *Time.* Loans and purchase agreements shall be available through December 31, 1947.

§ 264.103 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative marketing association, corporation, partnership, individual, or other legal entity with which the CCC has entered into Lending Agency Agreement (Form PMA-97) or other forms prescribed by the Administrator.

§ 264.104 *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing barley in 1947, as landowner, landlord, tenant, or sharecropper.

§ 264.105 *Eligible barley.* Eligible barley shall be barley which was produced in 1947, of any class grading No. 5 or better (except class III Western barley having a test weight of less than 40 pounds per bushel) the beneficial interest in which is now in the producer, and always has been in him, or in him and a former producer whom he succeeded before the barley was harvested; provided such barley does not grade weevily, tough, stained, blighted, bleached, garlicky, ergoty, or smutty, and if offered as security for a farm storage loan, has been stored in the granary at least 30 days prior to its inspection for measurements, sampling, and sealing, unless otherwise approved by the State PMA committee.

§ 264.106 *Eligible storage.* Eligible storage for barley shall meet the following requirements:

(a) Under the loan program, eligible farm storage shall consist of farm bins and granaries which, as determined by the county committee, are of such substantial and permanent construction as to afford safe storage of the barley, permit effective fumigation for the destruc-

tion of insects, and afford protection against rodents, other animals, thieves, and weather.

(b) Under the loan and purchase agreement program, eligible warehouse storage shall consist of (1) public grain warehouses, situated at terminal, sub-terminal, or country points, for which a Uniform Grain Storage Agreement (CCC Form H) is in effect. (Warehousemen desiring approval should communicate with the CCC field office serving the area in which the warehouse is located), or (2) warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission.

(c) Under the purchase agreement program, barley stored in other than eligible warehouse storage will be purchased on delivered basis.

§ 264.107 *Approved forms.* The approved forms constitute the loan and purchase agreement documents which, together with the provisions of this bulletin, govern the rights and responsibilities of the producer, and should be read carefully. Any fraudulent representation made by a producer in obtaining a loan or purchase agreement or in executing any of the loan or purchase documents, will render him subject to prosecution under the United States Criminal Code.

Notes and chattel mortgages, and note and loan agreements, must be dated prior to January 1, 1948, and be executed in accordance with these instructions, with State and documentary revenue stamps affixed thereto where required by law. Purchase agreements must be signed and dated by the producer and mailed or delivered to the county committee prior to January 1, 1948. Notes and chattel mortgages, note and loan agreements, and purchase agreements executed by an administrator, executor, or trustee will be acceptable only where legally valid.

(a) *Farm storage loans.* Approved forms shall consist of producer's note on CCC Commodity Form A, secured by a chattel mortgage on CCC Commodity Form AA.

(b) *Warehouse storage loans.* Approved forms shall consist of note and loan agreement on CCC Commodity Form B, secured by negotiable warehouse receipts representing the barley stored in approved warehouses. All barley pledged as security for a loan on a single CCC Commodity Form B must be stored in the same warehouse.

(c) *Purchase agreement program.* The approved forms shall consist of the Purchase Agreement (Purchase Form 1) signed by the producer and approved by the county committee, negotiable warehouse receipts, and such other forms as may be prescribed by the Director, Grain Branch, PMA.

(d) *Warehouse receipts.* Barley stored in eligible warehouse storage in connection with a loan or purchase agreement must be represented by warehouse receipts which satisfy the following requirements:

(1) Warehouse receipts must be issued in the name of the producer properly endorsed in blank so as to vest title in the holder, and be issued by an approved warehouseman.

(2) Each warehouse receipt should set forth in its written terms that the barley

is insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone, and tornado, or in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(3) Liens for warehouse charges will be recognized by CCC, but only from May 15, 1947, or the date of the warehouse receipt, whichever is later.

(4) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show the gross weight and grade, dockage, test weight and all special grading factors.

(5) In the case of warehouse receipts issued for barley delivered by rail or barge, CCC will accept inbound weight and inspection certificates properly identified with the barley covered thereby in lieu of the information required by subparagraph (4) of this paragraph. In areas where licensed inspectors are not available at terminal and subterminal warehouses, CCC will accept inspection certificates based on representative samples which have been forwarded to and graded by licensed grain inspectors.

§ 264.108 *Determination of quantity.* A bushel shall be 48 pounds of clean barley free of dockage when determined by weight, or 1.25 cubic feet of barley testing 48 pounds per bushel when determined by measurement. A deduction of  $\frac{3}{4}$  of a pound for each sack will be made in determining the net quantity of the barley when stored as sacked barley. In determining the quantity of barley in farm storage by measurement, fractional pounds of the bushel test weight will be disregarded, and the quantity determined as above will be the following percentages of the quantity determined for 48-pound barley:

For barley testing	Percent
48 pounds or over	100
47 pounds or over, but less than 48 pounds	98
46 pounds or over, but less than 47 pounds	96
45 pounds or over, but less than 46 pounds	94
44 pounds or over, but less than 45 pounds	92
43 pounds or over, but less than 44 pounds	90
42 pounds or over, but less than 43 pounds	88
41 pounds or over, but less than 42 pounds	86
40 pounds or over, but less than 41 pounds	84
39 pounds or over, but less than 40 pounds	82
38 pounds or over, but less than 39 pounds	80
37 pounds or over, but less than 38 pounds	78
36 pounds or over, but less than 37 pounds	76
35 pounds or over, but less than 36 pounds	74

§ 264.109 *Determination of dockage.* The percentage of dockage shall be determined in accordance with the Official Grain Standards of the United States, and the weight of such dockage shall be deducted from the gross weight of the barley in determining the net quantity available for loan or purchase.

§ 264.110 *Liens.* The barley must be free and clear of all liens and encumbrances, or if liens or encumbrances exist on the barley, proper waivers must be obtained.

§ 264.111 *Service fees—(a) Loans.* Where the barley under loan is farm-stored the producer shall pay a service fee of 1 cent per bushel, and where the barley under loan is warehouse-stored the producer shall pay a service fee of  $\frac{1}{2}$  cent per bushel.

(b) *Purchase agreement.* At the time the producer applies for a purchase agreement he shall pay a preliminary minimum service fee of \$1.50. In addition, where delivery of barley is made under the purchase agreement, the producer shall pay a service fee of  $\frac{1}{2}$  cent per bushel on each bushel of barley delivered in excess of 300 bushels.

§ 264.112 *Set-offs.* A producer who is listed on the county debt register as indebted to any agency or corporation of the United States Department of Agriculture shall designate the agency or corporation to which he is indebted as the payee of the proceeds of the loan or purchase agreement to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of the service fees and amounts due prior lien-holders. Indebtedness owing to the CCC shall be given first consideration after claims of prior lien-holders.

§ 264.113 *Interest rate.* Loans shall bear interest at the rate of 3 percent per annum; and interest shall accrue from the date of disbursement of the loan, notwithstanding the printed provisions of the note.

§ 264.114 *Transfer of producer's equity.* The right of the producer to transfer either his right to redeem the barley under loan or his remaining interest may be restricted by CCC.

§ 264.115 *Safeguarding of the barley.* The producer obtaining a farm-stored loan is obligated to maintain the farm storage structures in good repair, and to keep the barley in good condition.

§ 264.116 *Insurance.* CCC will not require the producer to insure the barley placed under farm-storage loan; however, if the producer does insure such barley such insurance shall inure to the benefit of CCC to the extent of its interest, after first satisfying the producer's equity in the barley involved in the loss.

§ 264.117 *Loss or damage to the barley.* The producer is responsible for any loss in quantity or quality of the barley placed under farm-storage loan, except that uninsured physical loss or damage occurring without fault, negligence, or conversion on the part of the producer resulting solely from an external cause other than insect infestation or vermin will be assumed by CCC, provided the producer has given the county committee immediate notice in writing of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan.

§ 264.118 *Personal liability.* The making of any fraudulent representation by the producer in the loan documents, or in obtaining the loan, or the conversion or unlawful disposition of any portion of the barley by him, shall render the producer personally liable for the amount of the loan and for any resulting expense incurred by any holder of the note.

§ 264.119 *Maturity, delivery, and satisfaction—(a) Loans.* Loans mature on demand but not later than April 30, 1948. In the case of farm-storage loans, the producer is required to pay off his loan on or before maturity, or to deliver the mortgaged barley in accordance with instructions of the county committee. Credit will be given for the total quantity delivered, provided it was stored in the bins in which the barley under loan was stored, at the applicable loan rate, according to grade and/or quality. If the settlement value of the barley delivered exceeds the amount due on the loan, the amount of the excess shall be paid to the producer. If the settlement value of the barley is less than the amount due on the loan, the amount of the deficiency, plus interest, shall be paid by the producer to CCC, or may be set off against any payment which would otherwise be made to the producer under any agricultural programs administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from CCC or any other agency of the United States. In the event the farm is sold or there is a change of tenancy, the barley may be delivered before the maturity date of the loan upon prior approval by the county committee. In the case of warehouse storage loans, if the producer does not repay his loan upon maturity CCC shall have the right to sell or pool the barley in satisfaction of the loan in accordance with the provisions of the note and loan agreement and § 264.120.

(b) *Purchase agreements.* The producer who signs a purchase agreement (Purchase Form 1) shall not be obligated to deliver any specified quantity of barley to CCC. If the producer who signs a purchase agreement desires to sell barley to CCC he shall, during the month of May 1948, submit warehouse receipts representing eligible barley stored in eligible warehouse storage to the county committee for the quantity of such barley he elects to sell to CCC, or, in the case of barley stored in other than eligible warehouse storage, he shall notify the county committee of his intention to sell and request delivery instructions. The producer must then complete delivery within a 15-day period immediately following the date the county committee issues delivery instructions, unless the county committee determines more time is needed for delivery. Delivery shall be made to an approved warehouse, or as otherwise directed by the Administrator of FMA or his authorized representative. When delivery is completed, payment shall be made as prescribed by the Administrator. The producer shall direct to whom payment of the purchase price shall be made.

In the case of barley stored in eligible warehouse storage, purchases will be made on the basis of the weight, grade, and other quality factors shown on the warehouse receipts and accompanying documents. Barley delivered from other than eligible warehouse storage will be purchased on the basis of official weights, grades and other quality factors at destination, or official weights at destination and official grades and other quality factors at the inspection point shown on the shipping order furnished the producer, which unless otherwise agreed shall be the customary location, on the route of shipment, of an inspector licensed under the U. S. Grain Standards Act; or, if such barley is delivered to a local CCC bin site, on the basis of the weight, grade and quality determinations made by the county committee (in accordance with instructions for the determination of such factors under the loan program) and approved by the producer at the time of delivery.

§ 264.120 *Removal of the barley under loan.* If the loan is not satisfied upon maturity by payment or delivery, the holder of the note may remove the barley and sell it, either by separate contract or after pooling it with other lots of barley similarly held. The producer has no right of redemption after the barley is pooled, but shall share ratably in any overplus remaining upon liquidation of the pool. CCC shall have the right to treat the pooled barley as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of the barley, even though part or all of such pooled commodity is disposed of under such policies at prices less than the current domestic price for such commodity. Any sum due the producer as a result of the sale of the barley or of insurance proceeds thereon, or any ratable share resulting from the liquidation of a pool, shall be payable only to the producer without right of assignment by him.

§ 264.121 *Release of the barley under loan.* A producer may at any time obtain release of the barley remaining under loan by paying to the holder of the note, or note and loan agreement, the principal amount thereof, plus interest. If the note is held by an out-of-town lending agency or by CCC, the producer may request that the note be forwarded to a local bank for collection. In such case, where CCC is the holder of the note, the local bank will be instructed to return the note if payment is not effected within 15 days. All charges in connection with the collection of the note shall be paid by the producer. Upon payment of a farm-storage loan, the county committee should be requested to release the mortgage by filing an instrument of release or by a marginal release on the county records. Partial release of the barley prior to maturity may be arranged with the county committee by paying to the holder of the note the amount of the loan, plus charges and accrued interest, represented by the quantity of the barley to be released. In the case of warehouse-

storage loans, each partial release must cover all of the commodity under one warehouse receipt number.

§ 264.122 *Purchase of notes.* CCC will purchase, from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages or negotiable warehouse receipts. The purchase price to be paid by CCC will be the principal sums remaining due on such notes, plus accrued interest from the date of disbursement to the date of purchase at the rate of 1½ percent per annum. Lending agencies are required to submit a weekly report to CCC and to the county committees on 1940 C. C. C. Form F or such other form as the Corporation may prescribe, of all payments received on producer's notes held by them, and are required to remit promptly to CCC an amount equivalent to 1½ percent interest per annum, on the amount of the principal collected, from the date of disbursement to the date of payment. Lending agencies should submit notes and reports to the CCC field office serving the area.

§ 264.123 *Field offices of CCC.* The field offices of CCC, and the areas served by them, are shown below:

*Address and Area*

623 South Wabash, Chicago 3, Ill. Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Maine, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, West Virginia.

300 Interstate Building, 417 East 13th Street, Kansas City 6, Mo. Alabama, Arkansas, Colorado, Georgia, Florida, Kansas, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, Oklahoma, South Carolina, Texas, Wyoming.

328 McKnight Building, Minneapolis 1, Minn. Minnesota, Montana, North Dakota, South Dakota, Wisconsin.

Eastern Building, 515 Southwest Tenth and Washington Streets, Portland 5, Oreg. Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.

§ 264.124 *Loan and purchase rates.* Loan and purchase rates for No. 1 barley are set forth below:

(a) *Basic loan and purchase rates at terminal markets.* 1947 barley loan and purchase rates per bushel for No. 1 barley, stored in approved public grain warehouses at the following terminal markets, shall be as follows:

Market	Loan and purchase rate per bushel
Chicago, Ill., and St. Louis, Mo.	\$1.20
Kansas City, Mo., Omaha, Nebr., Minneapolis and Duluth, Minn., and Superior, Wis.	1.16
Memphis, Tenn.	1.26
San Francisco and Los Angeles, Calif., and Portland, Oreg.	1.23
Baltimore, Md., and Philadelphia, Pa.	1.31

For loan or purchase at the full rates shown in the above schedule, the barley must have been shipped by rail at the domestic interstate freight rate. The rate at the designated terminal market will be reduced by the difference between the freight paid and the domestic interstate freight rate, on any barley shipped at other than such freight rate.

The foregoing schedule of rates applies to barley delivered to any designated ter-

минаl market in carload lots which has been shipped by rail from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided*, That in the event the amount of paid-in freight is insufficient to guarantee minimum proportional freight rate from the terminal market, there shall be deducted from the applicable terminal rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional freight rate. The warehouse receipts must be accompanied by the registered freight bills, or by (1) a statement in the following form signed by the warehouseman, (2) a certificate of the warehouseman containing such a certification, or (3) such forms as may hereafter be approved by CCC.

**FREIGHT CERTIFICATE FOR TERMINALS**

The barley represented by attached warehouse receipt No. \_\_\_\_\_ was received by rail freight from \_\_\_\_\_ (Town)

\_\_\_\_\_ (County) \_\_\_\_\_ (State)  
point of origin, as evidenced by freight bill described as follows:

The above-described paid freight bill has been officially registered for transit and will be held in accordance with the provisions of paragraph 19 of the Uniform Grain Storage Agreement.

Barley stored at a designated terminal market (including trucked-in barley) for which neither registered freight bills nor such freight certificates are presented shall have a loan or purchase rate equal to the higher of (1) the terminal rate minus 6 cents per bushel, or, (2) the county rate for the county in which the barley is stored.

(b) *Basic loan and purchase rates at other than designated terminal points.* CCC will determine the loan and purchase rate for barley in storage on the farm or in country warehouses by deducting from the designated terminal market rate an amount equal to (1) the receiving and loading-out charges computed in accordance with the schedule of rates of the Uniform Grain Storage Agreement (CCC Form S) plus (2) the average all-rail interstate freight rate (plus tax), from all shipping points in the county.

Upon request by the county committee, the Branch office of CCC will determine the loan and purchase rate for barley stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail from country shipping points, by deducting from the appropriate designated terminal market rate an amount equal to the transit balance of the through freight from point of origin for such bar-

ley to such terminal market, plus freight tax on such transit balance; *Provided*, That in the case of barley stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line or other costs incurred in storing barley in such position.

The warehouse receipts, in addition to other required documents, must be accompanied by the original paid freight bills duly registered for transit privileges or by a statement in the following form signed by the warehouseman, or a warehouseman's supplemental certificate containing such information:

**FREIGHT CERTIFICATE FOR OTHER THAN  
TERMINAL POINTS**

The barley represented by attached warehouse receipt No. \_\_\_\_\_ was received by rail freight from \_\_\_\_\_ (Town)

(c) *Variations for grades.* The loan and purchase rate for barley which grades No. 2 shall be discounted 2 cents per bushel; No. 3, 5 cents per bushel; No. 4, 8 cents per bushel; and No. 5, 15 cents per bushel. In addition a discount of two cents per bushel shall apply to "mixed" barley.

(d) *Storage allowance.* There shall be no storage allowance on barley under either the loan or purchase agreement program.

A deduction of 7¢ per bushel shall be made from the applicable loan rate on barley being placed under loan in a warehouse, unless evidence is submitted with the warehouse receipt that all warehouse charges except receiving charges have been prepaid through April 30, 1948.

A deduction of 7¢ per bushel shall be made from the applicable purchase rate on warehouse-stored barley offered under the purchase agreement program unless evidence is submitted with the warehouse receipt that all warehouse charges except receiving charges have been paid through the date the warehouse receipts are tendered to the county committee.

(e) *County loan and purchase values.* Loan and purchase values per bushel of eligible barley for the respective States and counties basis No. 1 barley free of dockage are listed below:

## PART 277—TOBACCO LOANS

## SUBPART—1947

Statement with respect to flue-cured tobacco loan program for the 1947-48 marketing year—1947 crop—formulated by the Commodity Credit Corporation and Production and Marketing Administration. Also, announcement of the schedule of advance rates by grades for the 1947 crop of flue-cured tobacco.

Sec.  
277.21 Legal authority and level of loans.  
277.22 Administration.  
277.23 Advances to growers.  
277.24 Interest rates, recourse, and distribution of net gains.  
277.25 1947 Crop—flue-cured tobacco advance schedule (Types 11-14).

AUTHORITY: §§ 277.21 to 277.25, inclusive, issued under sec. 8, 56 Stat. 785, 58 Stat. 842, 784, 59 Stat. 306; 50 U. S. C. App. Sup. 969.

§ 277.21 *Legal authority and level of loans.* Section 8 of the Stabilization Act of 1942, as amended (50 U. S. C. App. sec. 968) authorizes and directs Commodity Credit Corporation to make loans to co-operating producers at 90 percent of parity as of the beginning of the marketing year with respect to flue-cured tobacco, and to noncooperators at rates equal to 60 percent of the rate for co-operators with respect to so much of the tobacco as would be subject to penalty if otherwise marketed (excess production above the marketing quota)

§ 277.22 *Administration.* The Tobacco Branch, Production and Marketing Administration, supervises the execution of the operation. Field execution of the operation will be carried out by a producer cooperative organization operating under contract with Commodity Credit Corporation. The name of the contracting organization may be obtained from the Director of the Tobacco Branch. The services include receiving, redrying, packing, storing, and marketing the tobacco. The contracting organization is authorized to enter into sub-contracts subject to the approval of the Tobacco Branch for the performance of certain of these services. Loan rates by official standard grades are established by the Tobacco Branch to reflect quality and other differences among the various kinds, types, and grades and loans are made to the contracting organization which in turn makes advances to growers.

§ 277.23 *Advances to growers.* The contracting organization will make the advances to growers at or through auction warehouses where growers normally offer their tobacco for sale.

§ 277.24 *Interest rates, recourse, and distribution of net gains.* The loans made to the contracting organization bear interest at the rate of 3 percent per annum and are fully nonrecourse both as to principal and interest except in the case of violation of or failure to carry out the terms of the contract. Net gains accruing from the final marketing of the tobacco acquired by the contracting organization will be distributed to the growers of the tobacco

<sup>1</sup>The advance rates quoted above are applicable to tied flue-cured tobacco. Rates for untied flue-cured tobacco are four dollars (\$4) per hundred pounds less for each grade. The Cooperative Association through which the loans are made is authorized to deduct from the amount paid to the grower 12 cents per hundred pounds to apply against the overhead costs to the Association of the loan operation. Tobacco can be placed under loan only by the original producer and at these rates only if produced on a cooperating farm. Tobacco graded "W" (wet), "U" (unsound), "DAM" (damaged), N2L, N2R, or N2G will not be accepted.

## TITLE 7—AGRICULTURE

### Subtitle A—Office of the Secretary, Department of Agriculture

#### PART 1—ADMINISTRATIVE REGULATIONS

#### DELEGATION OF AUTHORITY TO CARRY OUT RESPONSIBILITIES OF DEPARTMENT OF AGRICULTURE UNDER GREEK-TURKISH AND RELIEF FOR DEVASTATED COUNTRIES PRO- GRAMS

In carrying out the authority conferred by the act of May 22, 1947, entitled "An Act to Provide Assistance to Greece and Turkey" the joint resolution of May 31, 1947, entitled "Joint Resolution Providing for Relief Assistance to the People of Countries Devastated by War"; and Executive Orders 9857 and 9864, the Administrator of the Production and Marketing Administration is hereby authorized in behalf of this Department to cooperate with the Department of State to the extent he deems feasible in keeping with other established Departmental responsibilities and to the extent that funds may be made available therefor and in connection therewith to enter into such contracts and to perform such services as may be necessary to effectuate the commodity purchase and delivery programs under the authority of the aforementioned acts of Congress. In carrying out the authority hereunder, the Administrator of the Production and Marketing Administration may redelegate any of his authority to such employees of the Production and Marketing Administration as he may deem advisable, and may coordinate activities, pursuant to his authorization, within the Department with those of the Commodity Credit Corporation under its Supply Program.

This delegation of authority shall be effective as of July 1, 1947.

#### Chapter I—Production and Mar- keting Administration (Standards, Inspections, Marketing Practices)

##### PART 30—TOBACCO STOCKS AND STANDARDS

##### ESTABLISHMENT OF CLASS 3, TYPE 31-V, AIR-CURED TOBACCO

On June 26, 1947, a notice of proposed rule-making was published in the FEDERAL REGISTER (12 F. R. 4144), relative to a proposed amendment of the description of Class 3, air-cured types and groups (7 CFR 30.5), of the standards for tobacco established pursuant to section 2 of the Tobacco Stocks and Standards Act, as amended (45 Stat. 1079; 47 Stat. 662; 49 Stat. 893; 7 U. S. C. 501 et seq.) which proposed amendment is designed to establish a type of tobacco to

be known as Type 31-V, under Class 3, air-cured tobacco. Consideration having been given to all relevant matter presented, including the proposal set forth in the aforesaid notice, the standards for tobacco above referred to are hereby amended as follows:

Insert in § 30.5, Class 3: Air-cured types and groups, between the descriptions of Type 31 and Type 32, a new paragraph providing as follows:

*Type 31-V* Notwithstanding the definitions of "Type" and "Type 31" any tobacco having the general visual characteristics of quality, color, and length of Class 3, Type 31, air-cured tobacco, but which is a low-nicotine strain or variety, produced and to be marketed under such restrictions or controls as shall be specified by the Director of the Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, and which in its cured state is found by an authorized representative of the Department to have a nicotine content of not more than eight-tenths of one per centum ( $\frac{8}{10}$  of 1%), oven dry weight, shall not be classified as Type 31 but shall be classified and designated upon certification by the Department as Type 31-V. No groups are applicable to Type 31-V.

Compliance with the effective date requirements of the Administrative procedure Act (60 Stat. 237; Pub. Law No. 404, 79th Cong., 2d Sess.) is impracticable, unnecessary, and contrary to the public interest in that tobacco for the 1947 crop is currently being produced, it is essential to the proper application of the standards for tobacco established under the Tobacco Stocks and Standards Act, as amended, that tobacco of Type 31-V be distinguished from all other types of tobacco recognized and defined in such standards, and delay in the establishment of Type 31-V will prevent the application of such standard to the 1947 tobacco crop. Accordingly, the aforesaid amendment shall become effective immediately upon publication thereof in the FEDERAL REGISTER.

(45 Stat. 1079, 47 Stat. 662, 49 Stat. 893; 7 U. S. C. 501 et seq.)

Done at Washington, D. C., this 18th day of July 1947.

#### Chapter VII—Production and Mar- keting Administration (Agricultural Adjustment)

##### PART 701—NATIONAL AGRICULTURAL CON- SERVATION PROGRAM

##### MISCELLANEOUS AMENDMENTS

State Bulletins (Subpart—1947) issued December 17, 1946 (11 F. R. 14339), and amendments issued March 19, 1947 (12 F. R. 1831), and May 3, 1947 (12 F. R. 2377), are hereby further amended as follows:

1. Section 701.843 *California*, paragraph (j) (33) (ii) (b) is amended by deleting the language "\$0.25" and inserting therefor "\$0.30."

2. Section 701.844 *Colorado*, paragraph (j) (36) (i) (a) is amended by deleting the language "\$1.50" and inserting therefor "\$150."

3. Section 701.844 *Colorado*, paragraph (j) (50) is amended by deleting the language "Payment will be made only for eradication completed in 1947" and substituting therefor the following: "Payment will be made only for eradication completed in 1947, except that eradication is not required where 2,4-D is properly used under adequate supervision and a satisfactory control of the weeds is obtained."

4. Section 701.853 *Kansas*, paragraph (j) is amended by adding the following subparagraph (48)

(48) *Rock phosphate*. Application of rock phosphate in an approved manner in connection with a full seeding of perennial or biennial legumes. Rock phosphate applied to an established stand of perennial or first-year biennial legumes will also be approved, provided the eligible crop is not destroyed by tillage within 60 days after the phosphate is applied. This practice is eligible only in the following counties: Jewell, Mitchell, Lincoln, Ellsworth, Rice, Reno, Pratt, Barber, and all counties east thereof.

*Payment rate*: \$0.50 per 100 pounds of rock phosphate containing at least 28 percent  $P_2O_5$ .

5. Section 701.868 *New Mexico*, paragraph (j) is amended by deleting the entire paragraph and substituting therefor the following:

(j) *Conservation practices and rates of payment*. Prior approval by the county committee is required for all practices. Each practice must be carried out in accordance with specifications which may be obtained in the office of the county or State committee. No payment will be made for the practices contained in subparagraphs (23) to (31), inclusive, of this paragraph on any ranching unit containing 640 acres or more of grazing land unless a range-management plan for each unit is approved by the county committee and all requirements met; all prairie dogs are controlled; at least one check plot is available on the unit for the purpose of comparing the grazed area with the production in the ungrazed plot; and the producer complies with the utilization standards approved by the Field Service Branch. No payment will be made for the practices contained in subparagraphs (23), (24), (25), (29), (30), and (31) of this paragraph unless the performance of such practices will contribute to a better distribution of grazing of livestock on the unit.

6. Section 701.868 *New Mexico*, paragraph (j) (32) is amended by deleting all of the subparagraph except the *Payment rates*, and substituting therefor the following:

(32) *Eradication or control of bindweed by the use of chemicals* on cropland, along ditch banks, or on any eligible land

in a watershed furnishing water for irrigation. Payment will be made only when complete eradication is obtained, except where 2, 4-D is used and a satisfactory control is obtained.

7. Section 701.871 *North Dakota*, paragraph (i) (11) (iv) is amended by adding the language "pipes" immediately after the language "siphons" in the heading of the subdivision.

8. Section 701.873 *Oklahoma*, paragraph (i) (15) is amended by deleting the entire subparagraph and substituting therefor the following:

(15) *Contouring drilled crops*. Payment will not be made for this practice on any acreage for which payment is made under subparagraph (16) of this paragraph, nor if the distance between the drill rows exceeds 20 inches. Payment may be made for contouring a crop seeded in the fall of 1947 for harvest in 1948 following the contouring of a crop in the spring of 1947.

*Payment rates*. (i) Performing all cultural operations for the preparation of the seedbed and drilling the seed on the contour, \$0.75 per acre.

(ii) Seeding crops on the contour with a drill where the tillage operations are not carried out on the contour, \$0.25 per acre.

9. Section 701.881 *Utah*, paragraph (j) (9) is amended by deleting the figure "5" in the last sentence and inserting therefor the figure "3."

10. Section 701.884 *Washington*, paragraph (j) (23) (iv) is amended by adding the language "pipes" immediately after the language "siphons" in the heading of the subdivision.

11. Section 701.884 *Washington*, paragraph (j) (6) (i) is amended by inserting the language "grapevines" immediately following the language "orchard tree prunings."

#### PART 729—PEANUTS

##### NATIONAL MARKETING QUOTA FOR 1948 CROP

§ 729.601 *Purpose and basis*. The Agricultural Adjustment Act of 1938, as amended, provides that between July 1 and December 1 of each calendar year the Secretary of Agriculture shall proclaim a national marketing quota for peanuts for the crop produced in the next succeeding calendar year. Section 729.602 hereof establishes and announces the national marketing quota for the 1948 crop of peanuts. The determinations contained in § 729.602 are based on the latest available statistics of the Federal Government and the proclamation is made after due consideration of recommendations submitted in response

to public notice of the proposed action (12 F. R. 4233)

§ 729.602 *Proclamation and determination with respect to the national marketing quota, normal yield per acre and national acreage allotment for peanuts for the crop produced in the calendar year 1948*—(a) *National marketing quota*. The amount of the national marketing quota for peanuts for the crop produced in the calendar year 1948 is 1,520,000,000 pounds.

(b) *Normal yield per acre*. The normal yield per acre of peanuts for the United States for the crop produced in the calendar year 1948 is 654 pounds.

(c) *National acreage allotment*. The national acreage allotment for peanuts for the crop produced in the calendar year 1948 is 2,324,159 acres.

(55 Stat. 88, 89; 7 U. S. C. Sup. 1358)

[Suspension Order S-22, Amdt.]

#### PART 807—SUSPENSION ORDERS

RANCHO ROYALE HOTEL CO. AND SAMUEL H. LEVIN

In view of the revocation of Veterans' Housing Program Order 1 and issuance of Construction Limitation Regulation by the Office of the Housing Expediter, the Chief Compliance Commissioner has directed that the Suspension Order S-22, heretofore issued on May 1, 1947, be amended as to its terms as hereinafter set forth.

It is therefore ordered, That paragraph (a) of Suspension Order S-22 be amended to read as follows: Effective July 21, 1947. *Provided, however*, That this does not affect any liabilities incurred for violations of the suspension order prior to its amendment:

§ 807.22 *Suspension Order No. S-22*. (a) Neither the Rancho Royale Hotel Company, a corporation, nor Samuel H. Levin, its or his successors or assigns, nor any other person shall do any further construction of a swimming pool or bar or any other construction for recreational or amusement purposes prohibited by the Construction Limitation Regulation on the premises located approximately three miles southeast of Palm Springs, California, on Highway 111, the Indio-Palm Springs Road, including putting up, completing or altering any such structure located thereon unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

In all other respects, the Suspension Order S-22 shall be in full force and

effect in accordance with its terms as of May 1, 1947, the date of issuance.

Issued this 21st day of July 1947.

OFFICE OF THE HOUSING  
EXPEDITER,  
By JAMES V. SARCONI,  
Authorizing Officer.

## TITLE 26—INTERNAL REVENUE

### Chapter I—Bureau of Internal Revenue, Department of the Treasury

#### Subchapter C—Miscellaneous Excise Taxes

[T. D. 5573]

#### PART 190—RECTIFICATION OF SPIRITS AND WINES

##### MISCELLANEOUS AMENDMENTS

1. On April 5, 1947, notice of proposed rulemaking regarding rectification of spirits and wine was published in the FEDERAL REGISTER (12 F. R. 2290)

2. After consideration of all such relevant matter as was presented by interested persons regarding the proposal, the following added § 190.9a and amendments to §§ 190.42, 190.153, 190.203, 190.279, 190.280, 190.281, 190.414 and 190.416 of Regulations 15, approved May 20, 1940 (26 CFR, Part 190) are hereby adopted.

3. These amendments are designed to regulate the use by rectifiers of alcoholic flavoring material subject to drawback under section 3250 (1) I. R. C., to provide for more practicable operation of rectifying plants by eliminating unnecessary requirements relative to construction and operation, to provide a more efficient method of determining proof of sweetened spirits and wines, and to permit the gauging by weight of rectified products containing solids.

4. Regulations 15, approved May 20, 1940 (26 CFR, Part 190) as amended, are hereby amended as follows:

§ 190.9a *Use of alcoholic flavoring materials*—(a) *Limitation*. The use of alcoholic flavors or flavoring extracts manufactured on premises other than a rectifying plant must be limited by the rectifier, so that the quantity of alcohol (proof gallons) contained therein will not represent more than  $2\frac{1}{2}$  percent of the quantity of alcohol (proof gallons) contained in the finished product, except as provided in paragraph (b) of this section. For example, one hundred gallons of a finished cordial, fifty degrees of proof, contain fifty proof gallons. As  $2\frac{1}{2}$  percent of fifty equals 1.25, the cordial could contain not more than 1.25 proof gallons of alcohol derived from such flavors or flavoring extracts used in its manufacture.

(b) *Exception to limitation*. In any case where the use of flavors or flavoring extracts in quantities in excess of the  $2\frac{1}{2}$  percent limitation prescribed in paragraph (a) of this section is required, such limitation shall not apply to the use of any flavors or flavoring extracts in excess thereof if the flavoring material used is purchased directly from the manufacturer and, as to each lot of purchased

flavors or flavoring extracts containing alcohol, the rectifier has available for examination by the storekeeper-gauger an affidavit of the manufacturer showing: (1) the quantity; (2) the date of manufacture; (3) the kind and brand of each flavor or flavoring extract; and (4) that drawback under section 3250 (1) I. R. C., has not been nor will be claimed on any alcohol or distilled spirits contained in the flavor or flavoring extract.

(c) *New formulas required*. The manufacture of rectified products in which are used alcoholic flavors or flavoring extracts to an extent not consistent with the provisions of this section and § 190.153, as amended, shall be discontinued within ninety days after the effective date of this regulation. New formulas, submitted for the purpose of showing the use of alcoholic flavors or flavoring extracts in the manufacture of rectified products, must furnish the information required by section 190.153, as amended. (Secs. 2801 (e) (1), 3176, 3250 (1), I. R. C.)

§ 190.42 *Stills*. All stills in the rectifying plant shall be located in the rectifying room and shall be of substantial construction and must have a clear space of not less than one foot around them. Every still must have plainly and legibly painted thereon words indicating its use, or uses, as "gin still," "cordial still," "water still," etc., followed by its serial number and capacity in wine gallons. All stills, except water stills and cordial stills of not more than 250 wine-gallon capacity, shall be connected with the receiving tanks by continuous permanent pipe lines: *Provided*, That, where such receiving tank is mounted on scales, the pipe line may be connected with the tank by means of flexible connections with the ends permanently attached and secured by means of Government cap seals, or by brazing or welding, to the inlet of the tank and to the pipe line. If the gin still is equipped with a pipe line to bypass the berry basket, such pipe line must be equipped with a valve for locking with a Government lock. (Secs. 2801 (e) (1), 3176, I. R. C.)

§ 190.153 *Description of formula*.  
\* \* \*

(a) *Flavoring materials*. Formulas providing for the use of alcoholic flavors or flavoring extracts under the provisions of § 190.9a, in addition to showing the kind of and percentage (by volume) of such material used, must specify the percentage of alcohol (by volume) contained therein. Any formula requiring the use of flavoring materials in excess of the  $2\frac{1}{2}$  percent limitation provided in § 190.9a (a) shall show the quantity of alcohol in the finished product derived from (1) flavors or flavoring extracts subject to drawback under section 3250 (1), I. R. C., and (2) flavors or flavoring extracts on which drawback has not been nor will be claimed, and, as to the latter, shall show whether such material is manufactured on rectifying plant premises or obtained from a manufacturer, and if obtained from a manufacturer, whether there will be on file at the rectifying plant a sworn statement

by the manufacturer that drawback under section 3250 (1) I. R. C., has not been nor will be claimed on such material. (Secs. 2801 (e) (1), 3176, I. R. C.)

§ 190.203 *Production*. Gin may be produced exempt from the rectifying tax, by the redistillation of a pure spirit over juniper berries and other aromatics. Gin so produced must be run into a receiving tank from which it must be promptly (a) drawn into packages, gauged, stamped, and removed to the finished products room or (b) transferred to a bottling tank, gauged, and (1) bottled and removed to the finished products room or (2) conveyed by pipe line to a contiguous tax-paid bottling house or rectifying plant for bottling. (See §§ 190.313 to 190.339.) (Secs. 2800 (a) (5), 2801 (e) (1), 3176, I. R. C.)

§ 190.279 *Determining proof of sweetened spirits, wines, etc.* The alcoholic content (a) of blended whiskies containing more than 0.6 gram or 600 milligrams of solids per 100 milliliters derived from blending materials such as sherry wine, prune juice, caramel, glycerine, etc., and (b) of wines, cordials, liqueurs, and other rectified products containing saccharine or other solid matter will be determined by the use of an approved ebulliometer or a small laboratory still, provided by the rectifier in accordance with §§ 190.313 to 190.331, inclusive. When using such instruments rectifiers must follow closely the instructions furnished therewith, in order that accurate determinations may be made. Instructions relative to the use of small laboratory stills (or wine sets) and the following ebulliometers: Arnaldo-Sala (with shield) Braun, Juerst, Lafco, L'Ebulliometer Levesque (with shield) Malligand (with shield), Salleron-Dujardin, "TAG" (with shield) and E. B. Torino (with shield) are also set forth in the appendix to Regulations 7, Wine—1945 (26 CFR, Part 178). The alcoholic content of blended spirits containing not more than 0.6 gram or 600 milligrams of solids per 100 milliliters derived from blending materials will be determined by the use of a standard hydrometer or a small still. If determined by a standard hydrometer an obscuration correction factor may be added to the apparent proof in order to obtain the true proof of the blended spirits. Experience has shown that 0.1 gram or 100 milligrams of solids per 100 milliliters will obscure the true proof 0.4 of 1° of proof. For example, if a blended whisky contains 0.25 gram or 250 milligrams of solids per 100 milliliters and the apparent proof corrected to 60° Fahrenheit is found to be 89° proof by a standard hydrometer, a correction factor of 1° of proof (2.5 times 0.4) due to the solids may be added to the apparent proof, hence the true proof would be 90°. The solids in blended spirits due to blending materials will be determined by evaporating 25 milliliters of the blended spirits in a weighed dish on a steam bath and then heating for 30 minutes at the temperature of boiling water in a drying oven. The solids thus determined, multiplied by 4, will give the solids in 100 milliliters of blended spirits. The correction factor to be

used then will be determined on the basis that every 100 milligrams of solids will obscure the proof 0.4 of 1° of proof. The ebulliometer should not be used in determining the alcoholic content of blended spirits containing not more than 0.6 gram or 600 milligrams of solids per 100 milliliters. (Secs. 2801 (e) (1), 2861, 3176, I. R. C.)

§ 190.280 *Determining contents by weight.* Rectified spirits containing not more than 0.6 gram or 600 milligrams of saccharine or other solid matter per 100 milliliters which are transferred to portable packages or to a bottling tank mounted on scales may be gauged by weight in accordance with the official Gauging Manual. To this end accurate scales must be provided. Government officers will frequently test, by means of the test weights provided in accordance with § 190.32, the accuracy of the scales used for weighing packages. Scales used for weighing spirits in lots of not over 500 gallons in bottling tanks will be tested from time to time under the supervision of the storekeeper-gauger by means of the test weights provided in accordance with § 190.32. Such scales will be tested by placing the prescribed test weights upon the scales and checking the weight registered on the beam of the scales. The test weights will then be removed without disturbing the beam and the bottling tank filled with spirits or water to the same weight, whereupon the test weights will again be placed upon the scales, the spirits or water being retained in the tank, and the weight registered on the beam checked. This operation will then be continued until the scales have been checked in 500-pound notches at all weights for which the scales are used. Rectifiers will have scales used for weighing spirits in larger lots tested and their accuracy certified by State, county, or city departments of weights and measures at intervals of not more than six months. The storekeeper-gauger will not permit the use of any scales not so tested or which upon testing are found to be inaccurate. (Secs. 2801 (e) (1), 2861, 3176, I. R. C.)

§ 190.281 *Determining contents by measure.* Rectified spirits transferred to a bottling tank not mounted on scales, and spirits, wines, cordials, liqueurs, and other rectified products containing saccharine and other solid matter will be gauged by measure to determine the wine-gallon content (corrected to volume in accordance with Table 7 of the Gauging Manual), the proof-gallon content will then be determined by multiplying the wine-gallon content by the proof (pointed off in two decimal places) of the spirits. If the spirits, wines, cordial, liqueurs, and other rectified products containing saccharine or other solid matter are transferred to packages, the capacity of each package must be ascertained before the liquors are placed therein, or the quantity to be placed in each package must first be ascertained by actual measure in another vessel provided for that purpose: *Provided, however,* That the quantity in wine gallons of any liquor placed in packages may be determined by weight if the specific gravity of the liquor is ascertained and

used in calculating the volume. Secs. 2801 (e) (1) 2861, 3176, I. R. C.)

§ 190.414 *Packages of distilled spirits.* In addition to the serial number, there shall be plainly and durably burned, cut, imprinted, or stenciled, on the Government head of each barrel or similar container of distilled spirits (a) the kind of spirits; (b) the wine gallon content; (c) the proof of the spirits; (d) the proof gallon content; (e) the tare of the container; (f) the date of filling; (g) the number of the approved formula under which rectified; (h) the name (or trade name or style) of the rectifier; (i) the location (city or town, and State) of the rectifying plant; and (j) the number of the rectifier's basic permit issued under the Federal Alcohol Administration Act: *Provided,* That if the spirits were rectified by such rectifier, or if the spirits are unrectified spirits which were produced by such rectifier at a distillery, he may use in connection with his name the designation "Rectifier" or "Distiller," respectively. (Secs. 2801 (e) (1), 2861, 3176, I. R. C.)

§ 190.416 *Packages and cases of wine.* The rectifier shall place marks upon packages and cases of wine similar to the marks required by §§ 190.414 and 190.415 to be placed upon packages and cases of distilled spirits, except: The tare need not be marked on the packages; the alcoholic content of the wine will be shown in percentage by volume in lieu of the proof; and, in the case of unrectified wine, the proof gallons may be omitted. (Secs. 2801 (e) (1) 3040, 3176, I. R. C.)

2. This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER.

(Secs. 2800 (a) (5) 2801 (e) (1) 2861, 3040, 3176, 53 Stat. 298, 301, 329, 354; 26 U. S. C. A. 2800, 2801, 2861, 3040, 3176, 3250)

#### PART 197—DRAWBACK OF TAX ON DISTILLED SPIRITS USED IN THE MANUFACTURE OF NONBEVERAGE PRODUCTS

##### MISCELLANEOUS AMENDMENTS

1. On April 23, 1947, notice of proposed rule-making regarding drawback of tax on distilled spirits used in the manufacture of nonbeverage products was published in the Federal Register (12 F. R. 2610)

2. After consideration of all such relevant matter as was presented by interested persons regarding the proposal, §§ 197.3, 197.24 (c) (2), 197.26, 197.33 and 197.34 of Regulations 29, approved November 30, 1944 (26 CFR, Cum. Sup., Part 197) are hereby revoked and the following amendments to §§ 197.2, 197.3,

197.5, 197.17, 197.18, 197.21, 197.22, 197.23 (d), 197.24 (d), 197.24 (e), 197.25 and 197.28 of Regulations 29, approved November 30, 1944 (26 CFR, Cum. Sup., Part 197) are hereby adopted.

3. These amendments are designed to eliminate obsolete provisions of the regulations, to provide a more efficient procedure for the filing of claims, and to provide accounting procedure pursuant to the provisions of section 309 of the Revenue Act of 1943 amending section 3250 (1) Internal Revenue Code.

4. Regulations 29, approved November 30, 1944 (26 CFR, Cum. Sup., Part 197), as amended, are hereby amended as follows:

§ 197.2 *Definitions.* As used in the regulations in this part, the following terms shall have the meaning as defined herein:

(a) "Domestic distilled spirits" and "Distilled spirits" shall mean that substance known as ethyl alcohol produced at industrial alcohol plants operated under Regulations 3 (26 CFR, Cum. Sup., Part 182) and those substances known as whisky, brandy, rum, or other spirits, produced at registered distilleries or fruit distilleries operated under Regulations 4 (26 CFR, Cum. Sup., Part 183) and 5 (26 CFR, Cum. Sup., Part 184)

(b) "Year" shall mean the period which begins July 1 and ends on the following June 30.

(c) "Intermediate products" shall mean products containing distilled spirits which are not subject to drawback until used in a nonbeverage product eligible for drawback.

§ 197.3 *Terms used in the statute.*

(c) *Time.* The "time" at which distilled spirits shall be deemed to have been used is when the product contains the ingredients called for by an approved formula, or formulas prescribed by the United States Pharmacopoeia, the National Formulary, or the American Institute of Homeopathy, as the case may be. (Sec. 3250 (1), I. R. C.)

(d) *Filed.* A claim for drawback shall be deemed to have been "filed" when it is delivered to the office of the proper district supervisor, Alcohol Tax Unit, and by that office received.

(e) *Total annual withdrawals.* The term "total annual withdrawals" shall mean the total quantity of distilled spirits (proof gallons), which are used in the manufacture or production of nonbeverage products during a year.

§ 197.5 *Payment and rates of special tax.* Each person who uses distilled spirits in the manufacture or production of medicines, medicinal preparations, food products, flavors, or flavoring extracts which are unfit for beverage purposes, in order to be eligible to claim the drawback on the distilled spirits so used, must pay special tax at the rate of \$25 per annum for total annual withdrawals not exceeding 25 proof gallons of distilled spirits; \$50 per annum for total annual withdrawals not exceeding 50 proof gallons; or \$100 per annum for total annual withdrawals of more than 50 proof gallons. Where a claim is filed in the first quarter of a year, covering distilled spirits used during the last quar-

ter of the preceding year, and special tax has not been paid for the preceding year, special tax for such preceding year must be paid in the appropriate amount prior to or at the time of filing the claim. Special tax, based upon estimated withdrawals, may be paid in advance of actual withdrawals. Adjustments of the special tax where improperly paid will be made in accordance with § 197.17. The manufacturer is not required to pay the special tax if he does not claim drawback on the distilled spirits used by him. (Secs. 3250 (1) and 4041 (a) I. R. C.)

§ 197.17. *Change to higher or lower rate of special tax.*—(a) *Change to higher rate.* A manufacturer of nonbeverage products who pays special tax of \$25 per annum and has filed or intends to file a claim or claims for drawback covering distilled spirits in excess of 25 proof gallons used during the year for which the special tax was paid, must pay special tax of \$50 or \$100, as the case may be, and obtain a stamp therefor. The manufacturer may thereupon submit the special tax stamp of \$25 to the collector of internal revenue to whom the special tax was paid with a claim on Form 843 for refund of the value thereof. Similar procedure will govern in the case of a manufacturer of nonbeverage products who pays special tax of \$50 and has filed or intends to file claim for drawback covering distilled spirits used in excess of 50 proof gallons.

(b) *Change to lower rate.* A manufacturer of nonbeverage products who pays special tax of \$100 or \$50 per annum, as the case may be, and, during the year for which the special tax was paid, files claim or claims for drawback covering the use of not more than 50 or 25 proof gallons of distilled spirits, as the case may be, may file a claim on Form 843 for refund of the difference between the special tax paid and the special tax due. The special tax stamp shall be attached to the claim. (Secs. 3250 (1) 3304, 3770, and 4041 (a) I. R. C.)

§ 197.18 *Refund of special tax.* Refund of special tax may be made if it is established that the taxpayer did not file a claim for drawback for the period covered by the special tax stamp. Where claim for drawback was filed, refund of special tax may be made if it is established that no drawback was allowed or paid for the period covered by the stamp. (Secs. 3250 (1) and 3770, I. R. C.)

§ 197.21 *Claims.* The claim for drawback shall be filed on Form 843, "Claim," in duplicate, with the district supervisor, Alcohol Tax Unit, for the district in which the place of manufacture is located, and shall pertain only to distilled spirits used in the manufacture or production of nonbeverage products during any one quarter of the year, and only one claim may be filed for each quarter. (Sec. 3250 (1) I. R. C.)

§ 197.22 *Date of filing claim.* The claim for drawback must be filed with the district supervisor, Alcohol Tax Unit, within the three months next succeeding the quarter in which the distilled spirits covered by the claim were used in the

manufacture of nonbeverage products. (Sec. 3250 (1) I. R. C.)

§ 197.23 *Information to be shown by the claim.* \* \* \*

(d) That the nonbeverage products were manufactured in compliance with (1) quantitative formulas filed with the Commissioner on Form 1678 prior to or at the time of manufacture, or (2) formulas prescribed by the United States Pharmacopoeia, the National Formulary, or the American Institute of Homeopathy.

§ 197.24 *Supporting data.* Each claim will be accompanied by statements of supporting data which shall be prepared in duplicate. One copy shall be attached to the original and one copy shall be attached to the duplicate of the claim. \* \* \*

(d) *Summaries.*—(1) *Summary of distilled spirits.* A statement showing in proof gallons the quantity of all distilled spirits on hand at the beginning of the quarter, quantity in process beginning of the quarter, quantity received during the quarter, quantity used during the quarter in the manufacture of nonbeverage products subject to drawback, quantity used in the manufacture of intermediate products, quantity otherwise used not subject to drawback, quantity in process at the end of the quarter, and the quantity remaining on hand at the end of the quarter. Distilled spirits in process will include distilled spirits represented in unfinished nonbeverage products, mixtures, menstruums, etc. Any discrepancy between the amount of distilled spirits on hand at the end of the quarter as disclosed by actual inventory and the amount shown by the manufacturer's records must be reported in the summary with an explanation of the cause thereof.

(2) *Summary of distilled spirits recovered from the dregs or marc of percolation, or extraction, of products eligible for drawback under section 3250 (1) Internal Revenue Code.* A statement showing in proof gallons the quantity of all recovered distilled spirits on hand at the beginning of the quarter, quantity in process beginning of the quarter, quantity recovered during the quarter, quantity used not subject to drawback, quantity in process at the end of the quarter, and the quantity remaining on hand at the end of the quarter. Any discrepancy between the amount of recovered distilled spirits on hand at the end of the quarter as disclosed by actual inventory and the amount shown by the manufacturer's records must be reported in the summary with an explanation of the cause thereof. Distilled spirits recovered from dregs or marc of percolation, or extraction, of products eligible for drawback may be reused in the manufacture of medicines or flavoring extracts of the kind in which originally used. Such recovered distilled spirits are not eligible for drawback and may be reused only in the manufacture of nonbeverage products. They may not be used in the manufacture of intermediate products. (Sec. 190.4 (f), Reg. 15)

(3) *Summary of distilled spirits recovered from the dregs or marc of perco-*

*lation, or extraction, of intermediate products.* A statement showing in proof gallons the quantity of all recovered distilled spirits on hand at the beginning of the quarter, quantity in process beginning of the quarter, quantity recovered during the quarter, quantity used during the quarter in the manufacture of nonbeverage products subject to drawback, quantity otherwise used, and the quantity remaining on hand at the end of the quarter. Any discrepancy between the amount of recovered distilled spirits on hand at the end of the quarter as disclosed by actual inventory and the amount shown by the manufacturer's records must be reported in the summary with an explanation of the cause thereof. Any distilled spirits recovered from the dregs or marc of percolation, or extraction, of intermediate products as defined in the regulations in this part are eligible for drawback of tax only when used in the manufacture of a nonbeverage product.

(e) *Statement of intermediate products.* A statement showing the quantity in wine gallons of each intermediate product and the quantity of distilled spirits (proof gallons) used therein: (1) On hand at the beginning of the quarter, (2) produced during the quarter, and (3) on hand at the end of the quarter, and showing the quantity in wine gallons of each intermediate product and the quantity of the distilled spirits contained therein (proof gallons) (1) Used during the quarter in eligible products, (2) used during the quarter in other intermediate products, and (3) otherwise disposed of during the quarter. Any discrepancy between the amount of intermediate products on hand at the end of the quarter as disclosed by actual inventory and the amount shown by the manufacturer's records must be reported in the statement with an explanation of the cause thereof. Only the distilled spirits remaining in an intermediate product at the time of its use in the manufacture of an approved nonbeverage product are eligible for drawback.

§ 197.25 *Handling of claims.* The district supervisor, Alcohol Tax Unit, will date-stamp each copy of the claim on Form 843, and, after recording, will examine the claim for the purpose of determining whether it is properly executed and that all supporting data have been submitted and will conduct such inquiries and investigations as may be necessary to verify that drawback is allowable on the distilled spirits covered by the claim. After completion of such verification he will forward the original copies of the claim and supporting data, and a copy of the report of investigation, with his recommendation as to the merit of the claim to the Commissioner. (Sec. 4041 (a) I. R. C.)

§ 197.28 *Statement of process.* The Commissioner, at his discretion, may at any time require any person claiming drawback under the regulations in this part to file a statement of process in addition to that required by Form 1678 and such other data as he may deem necessary for consideration of such person's claim for drawback. When such

additional data are required, the statement of process should be submitted in triplicate with copies of the commercial labels used on the finished products.

5. This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER. (Secs. 3250, 4041, 53 Stat. 388, 495; 26 U. S. C. 3250, 4041)

NOTE: Area quotas as set forth in this section will continue in effect for the same area even though the Branch Office having jurisdiction over such area is discontinued.

This amendment shall become effective July 18, 1947.

Issued this 18th day of July 1947.

[SEAL] N. E. DODD,  
Acting Secretary of Agriculture.

#### Rationale Accompanying Amendment No. 4 to General Ration Order 19

This amendment revises the quotas allotted to Branch Offices which were established for industrial and institutional user refreshment bases under this order. Since institutional users are no longer rationed in their use of sugar for institutional use and do not need a base in order to make and serve refreshments in their establishments, the quotas originally established for institutional user refreshment bases are being added to the quotas established for industrial users.

This amendment, therefore, makes available to industrial users the entire quantity of sugar which the Sugar Control Extension Act of 1947 required should be set aside for new sugar users.

#### PART 707—RATIONING OF SUGAR SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

1. Section 22.13 is amended by adding a new paragraph (c) to read as follows:

(c) Notwithstanding the terms of any contract, agreement or commitment, regardless of when made, no person shall deliver sugar to any retailer, wholesaler or industrial user against whom he knows or has reason to know there is in operation an administrative suspension order prohibiting the acquisition of sugar.

2. Section 25.1 (c) 27 (iii) is amended to read as follows:

(iii) Any grade or type of saccharine product derived from sugarcane or sugar beets, which is principally of non-crystalline structure and, regardless of the percentage amount of non-sugar solids, contains soluble non-sugar solids (exclusive of any foreign substance that may have been added or developed in the product) consisting of less than 20 percent sulphated ash, excluding, however, any saccharine product, irrespective of the ash content thereof, which, under written authority granted to the producer of such product by the Director of the Sugar Branch, Production and Marketing Administration, of the Department of Agriculture, and upon compliance with the labeling and record-keeping requirements of the Department of Agriculture, contains soluble non-sugar solids equal to 6 percent or more of the total soluble solids and which results from reprocessing final beet molasses or blackstrap molasses or edible molasses.

This amendment shall become effective June 18, 1947.

Issued this 18th day of July 1947.

[SEAL] N. E. DODD,  
Acting Secretary of Agriculture.

#### Rationale Accompanying Amendment No. 66 to Third Revised Ration Order 3

The present regulations exclude from the definition of sugar certain saccharine products which are produced under written authority granted to the producer of such products by the Department of Agriculture under the provisions of War Food Order No. 51 and which meet certain specified standards. Owing to the termination of War Food Order No. 51, this amendment provides that the Director of the Sugar Branch, Production and Marketing Administration, of the Department of Agriculture shall exercise the authority hitherto exercised in connection with the sugar rationing regulations by the Order Administrator of War Food Order No. 51 with respect to such saccharine products.

This amendment also removes the requirement that a saccharine product, to be excluded from the definition of sugar, must be produced in accordance with the

\* 11 F. R. 177, 14281.

commercially recoverable sugar formula, determined by the Secretary of Agriculture under the provisions of section 302 (a) of the Sugar Act of 1937, as amended, and must be classified by the Order Administrator of War Food Order No. 51, as amended, as edible molasses. The remaining requirements in the regulations for the exclusion of such a product from the definition of sugar continue in effect.

The requirement which this amendment removes was established in order to prevent an unreasonable diversion of sugar into this type of product. The improved sugar supply situation, as reflected in the increase in rationing levels and the removal of rationing controls over consumers and institutional users, coupled with the improved availability of nonrationed sugar substitutes, has reduced this danger of a diversion of sugar into such a product. In view of these improved conditions, it is deemed desirable to remove this requirement at this time.

This amendment further adds a provision to the rationing regulations which specifically prohibits a person from delivering sugar to any retailer, wholesaler, or industrial user against whom he knows or has reason to know that there is in operation an administrative suspension order prohibiting the acquisition of sugar. It is desirable to implement the restrictions of an administrative suspension order so that a person who knows or has reason to know that a retailer or wholesaler or industrial user is prohibited from acquiring sugar will also be prohibited from delivering sugar to such suspended unit or user.

#### PART 710—FOOD PRICES

##### DIRECT CONSUMPTION SUGAR

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 60 issued by the Office of Price Administration and amended by the Office of Temporary Controls under § 1334.51 of Title 32, Chapter XI is redesignated Maximum Price Regulation No. 60 issued under § 710.60, Title 32, Chapter VII pursuant to the authority vested in the Secretary of Agriculture by the Sugar Control Extension Act of 1947 and is amended in the following respects:

Section 10 (b) is amended to read as follows:

(b) "Direct consumption sugars" means any grade, or type of saccharine product derived from sugar beets or sugarcane, which is not to be, and which shall not be, further refined or otherwise improved in quality and which is

principally of crystalline structure containing sucrose, dextrose or levulose; or liquid sugar as herein defined. "Liquid sugar" means:

(i) Any syrup of cane juice, produced from sugarcane grown in the continental United States, which contains less soluble non-sugar solids (exclusive of any foreign substances that may have been added or developed in the product) than 4.5 percent of the total soluble solids; or

(ii) Any other grade or type of saccharine product derived from sugarcane or sugar beets, which is principally of non-crystalline structure and which contains less soluble non-sugar solids (exclusive of any foreign substances that may have been added or developed in the product) than 6 percent of the total soluble solids; or

(iii) Any grade or type of saccharine product derived from sugarcane or sugar beets, which is principally of non-crystalline structure and, regardless of the percentage amount of non-sugar solids, contains soluble non-sugar solids (exclusive of any foreign substance that may have been added or developed in the product) consisting of less than 20 percent sulphate ash, excluding, however, any saccharine product, irrespective of the ash content thereof, which under written authority granted to the producer of such product by the Director of the Sugar Branch, Production and Marketing Administration, of the Department of Agriculture and upon compliance with the labeling and record-keeping requirements of the Department of Agriculture, contains soluble non-sugar solids equal to 6 percent or more of the total soluble solids and which results from reprocessing final beet molasses or blackstrap molasses or edible molasses.

This amendment shall become effective June 18, 1947.

Issued this 18th day of July 1947.

Acting Secretary of Agriculture.

#### Statement of the Considerations Involved in the Issuance of Amendment 11 to MPR 60

The accompanying amendment changes the definition of "direct consumption sugars" so that it will be consistent with the definition of sugar contained in Third Revised Ration Order 3, as amended by Amendment 66 to that order. The rationale accompanying that amendment explains the changes made in the definition and the reasons therefor.

For the purpose of clarity the entire definition of "direct consumption sugars" is given in the amendment although the only change in wording is in subdivision (iii) of section 10 (b) in that portion of the definition which defines the term "liquid sugar." "Liquid sugar" is included in the definition of sugar under the regulation except for those products which are specifically excluded.

Subdivision (iii) excludes from the definition of "liquid sugar" any saccharine product which is produced under written authority granted to the pro-

ducer of such product by the Director of the Sugar Branch, Production and Marketing Administration, Department of Agriculture, upon compliance with the prescribed labeling and record-keeping requirements of the Department. This does not mean, however, that such a saccharine product is exempt from price control. Such a product although excluded from MPR 60 remains subject to price control as a syrup under the provisions of the General Maximum Price Regulation. Similar products have in many instances been priced by individual orders issued under the procedure established by Order 375 to that regulation.

#### PART 95—CAR SERVICE

##### FREE TIME AT PORTS ON GONDOLA CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 17th day of July A. D. 1947.

It appearing, that there is a critical shortage of gondola cars and that free time published in tariffs for unloading

such cars at ports aggravates the shortage thereof; in the opinion of the Commission an emergency exists requiring immediate action at all ports of the country. It is ordered, that:

§ 95.758 *Free time at ports on gondola cars*—(a) *Free time reduced on gondola cars*. No common carrier by railroad, subject to the Interstate Commerce Act, shall allow, grant or permit more than a total of 7 days' free time on gondola cars held for unloading in coastwise, intercoastal or foreign commerce at the point of transshipment from car to vessel or when held short of such transfer point. The provisions of this paragraph shall not be constructed to require or permit the increase of any free time published in tariffs lawfully on file with this Commission.

(b) *Computation of free time*. (1) All Sundays and legal holidays shall be included in computing the free time provided in paragraph (a) of this section.

(2) The free time provided in paragraph (a) of this section shall be computed continuously from the first 7:00 a. m. after notice of arrival is sent, or after actual or constructive placement (whichever occurs first) until final release, less actual time required to move a constructively placed car to point of unloading.

(c) *Description of cars*. This section shall apply to cars suitable for interchange described under the heading Class G-Gondola Car Type.

(d) *Exemptions*. This section shall not apply to cars described in paragraph (c) of this section loaded with bulk freight. Bulk freight means any carload freight consisting of any non-liquid, non-gaseous commodity shipped loose or in mass and which in the unloading thereof is ordinarily shoveled, scooped, forked, or mechanically conveyed, or which is not in containers or in units of such size as to permit piece by piece unloading.

(e) *Extreme weather*. During the period when weather conditions exist as described in Rule 8, Section A, Agent B. T. Jones' Tariff I. C. C. No. 3963, the provisions of this order are suspended. In lieu thereof the rules, regulations, and charges provided in lawfully published tariffs shall apply.

(f) *Effective date*. This section shall become effective at 7:00 a. m., July 21, 1947.

(g) *Expiration date*. This section shall expire at 7:00 a. m., December 1, 1947, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(h) *Tariff provisions suspended*. The operation of all tariffs, rules and regulations, insofar as they conflict with the provisions of this order is hereby suspended.

(i) *Announcement of suspension*. Each railroad, or its agent shall publish, file, and post a supplement to each of its tariffs affected thereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of the operation of any of the provisions therein, and establishing the substituted provisions set forth herein.

It is further ordered, that this order shall vacate and supersede Service Or-

der No. 758 on the effective date hereof; that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as Agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Pick-up and Delivery Services by Motor Carriers, Docket MC-C-542; Charges on Small Shipments by Motor Carriers, Docket MC-C-543.

The matter of the lawfulness of the rates, charges and practices in connection with small shipments by common carriers by motor vehicle being under consideration: It is ordered, that:

§ 204.1 *Traffic inquiry data.* Each class I common carrier by motor vehicle engaged in intercity service as a carrier of general commodities and subject to Part II of the Interstate Commerce Act, which had an annual gross operating revenue for the year ended December 31, 1946 of \$400,000, or more, and every receiver, trustee, executor, administrator, or assignee of any such motor common carrier, is hereby required to compile and furnish to this Commission, the data called for in Traffic Table No. 1 which is attached hereto and made a part hereof. The Traffic Table shall be filed in duplicate with the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington 25, D. C., on or before the 15th day of October 1947.

It is further ordered, that a copy of this order and attachment thereto shall be served upon each common carrier of general freight, defined in § 204.1, and notice hereof shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

#### HANDLING OF MILK IN DESIGNATED MARKETING AREA

#### PROPOSED AMENDMENTS TO TENTATIVELY APPROVED MARKETING AGREEMENTS, AS AMENDED, AND MARKETING ORDERS, AS AMENDED

Notice of hearing on handling of milk in St. Louis, Missouri, Greater Boston, Massachusetts, Dubuque, Iowa, Greater Kansas City, La Porte County, Indiana, New York Metropolitan, Toledo, Ohio, Ft. Wayne, Indiana, Lowell-Lawrence, Massachusetts, Omaha-Council Bluffs, Chicago, Illinois, New Orleans, Louisiana, Quad Cities, Louisville, Kentucky, Fall River, Massachusetts, Sioux City, Iowa, Duluth-Superior, Philadelphia, Pennsylvania, Cincinnati, Ohio, St. Joseph County, Indiana, Wichita, Kansas, Suburban Chicago, Clinton, Iowa, Dayton-Springfield, Ohio, Tri-State, Minneapolis-St. Paul, Minnesota, Columbus, Ohio, and Cleveland, Ohio marketing areas.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and in accordance with the applicable rules of practice and procedure (7 CFR, Cum. Supp., 900.1 et seq., 11 F. R. 7737, 12 F. R. 1159) as amended, notice is hereby given of a hearing to be held in the Jefferson Memorial Auditorium, South Building, United States Department of Agriculture, Washington, D. C., beginning at 10 a. m., e. d. s. t., July 30, 1947, for the purpose of receiving evidence with respect to proposed amendments to the tentatively approved marketing agreements, as amended, the marketing agreements and the marketing orders, as amended, regulating the handling of milk in the following specified marketing areas: St. Louis, Missouri, Greater Boston, Massachusetts, Dubuque, Iowa, Greater Kansas City, La Porte County, Indiana, New York Metropolitan, Toledo, Ohio, Ft. Wayne, Indiana, Lowell-Lawrence, Massachusetts, Omaha-Council Bluffs, Chicago, Illinois, New Orleans, Louisiana, Quad Cities, Louisville, Kentucky, Fall River, Massachusetts, Sioux City, Iowa, Duluth-Superior, Philadelphia, Pennsylvania, Cincinnati, Ohio, St. Joseph County, Indiana, Wichita, Kansas, Suburban Chicago, Clinton, Iowa, Dayton-Springfield, Ohio, Tri-State, Minneapolis-St. Paul, Minnesota, Columbus, Ohio, and Cleveland, Ohio. Such

proposed amendments have not received the approval of the Secretary of Agriculture.

The amendments, which have been proposed by the Dairy Branch, Production and Marketing Administration, United States Department of Agriculture, and with respect to which evidence will be received at the said hearing, are as follows:

1. Amend each of the agreements and orders listed above by inserting appropriate provisions whereby any money claim thereunder shall be terminated or canceled after three years from its accrual, or after some other appropriate time, unless proper action has been instituted or taken within such period of time to enforce or present such claim, with appropriate provisions for an extension of such time in the event of fraud or nondisclosure of material facts or because of some other proper contingency. The addition of the following section to each such agreement and order is suggested as the detailed means of accomplishing this purpose:

*Late claims.* (a) Any claim against a handler for monies due by him under this order to the market administrator, or to any producer or to a cooperative association shall terminate and become void at the expiration of three years after the end of the delivery period in which the milk involved in the claim was received if an underpayment is claimed or three years after the date of the original payment if a refund is sought, unless a written demand therefor has been made against the handler within such period of time: *Provided*, That in the event of the handler's fraud, concealment of fact, failure to report material facts or failure to permit proper audit, any such claim against the handler shall not be so terminated or voided.

(b) Any claim by a handler against the market administrator for monies allegedly due under any provision hereof shall terminate and become void (1) at the expiration of three years after the end of the delivery period in which the milk involved in the claim was received, if an underpayment is claimed, or three years after the date of the original payment if a refund is sought, unless a written claim therefor has been filed by the handler with the market administrator within such period of time or (2) at the expiration of one year following the date of filing of such claim by the handler unless a proper administrative proceeding or court action based on such claim has been instituted by the handler.

2. Amend the existing record-keeping provisions of each such agreement and order by providing a specific period of time during which such records shall be maintained, which period should be co-

ordinated and related to whatever period may be fixed for filing of claims and institution of proceedings as a result of proposal No. 1, with proper provision for an extension of that time as to specific records upon demand by the market administrator in proper cases.

3. Make such other changes in other existing provisions of each such agreement and order as may be required to effectuate fully the foregoing proposals.

Dated: July 18, 1947.

### CIVIL AERONAUTICS BOARD

#### [14 CFR, Part 41]

#### SIGNING OF CLEARANCE FORMS, LOADING OF AIRCRAFT, AND SIGNING OF LOAD MANIFEST FORMS BY QUALIFIED PERSONNEL OTHER THAN THAT OF AIR CARRIER OPERATING AIRCRAFT

JULY 17, 1947.

The Safety Bureau of the Civil Aeronautics Board hereby gives notice that the Bureau will recommend that the Civil Aeronautics Board amend Part 41 of the Civil Air regulations to provide that qualified personnel other than that of the air carrier operating the aircraft may sign clearance forms, load aircraft, and sign load manifest forms. The proposed amendment does not change the present method of preparing and signing the maintenance release forms.

The proposed amendment is the same as that adopted for Part 61. The Safety Bureau will give careful consideration to all replies received and, after making any changes which appear to be appropriate, will present the proposed amendment to the Board for adoption. Any substantial objections to this proposal will be brought to the attention of the Board.

It is proposed to amend § 41.406 to read as follows:

§ 41.406 *Maintenance release, load manifest, and clearance forms.* All maintenance release, clearance, and load manifest forms used shall be approved by the Administrator. The original copies of such forms shall be given to the first pilot and duplicate copies kept in the station file for at least 90 days.

§ 41.4060 *Preparation of maintenance release form.* A maintenance release form shall be prepared for each aircraft delivered by the maintenance department to the operations department. This form must be signed by personnel of the

air carrier charged with the duty of supervising the maintenance of the aircraft.

§ 41.4061 *Preparation of clearance form.* A clearance form shall be prepared for each flight between specified clearance points. The information for such clearance shall be prepared by the authorized aircraft dispatcher of the air carrier operating the aircraft. This form shall be signed by the first pilot and by the authorized aircraft dispatcher only when both believe the flight may be made with safety. The authority to sign such clearance may be delegated for a particular flight by the authorized aircraft dispatcher, but the authority to dispatch cannot be delegated, and such dispatcher remains responsible for the dispatch and continued supervision of the flight.

§ 41.4062 *Preparation of load manifest form.* A load manifest form showing the loading of the aircraft shall be prepared and signed for each flight by properly qualified personnel of the air carrier charged with the duty of supervising the loading of the aircraft and the preparation of the load manifest forms, or by qualified persons authorized by the air carrier. The aircraft when loaded shall not exceed the center of gravity limits or maximum allowable weight limits set forth in the aircraft certificate for the particular aircraft.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 15 days from the date of this public notice.

##### AIR CARRIER FLIGHT RADIO OPERATORS MINIMUM RECENT EXPERIENCE REQUIREMENTS

JULY 17, 1947.

The Safety Bureau of the Civil Aeronautics Board is presenting proposed amendments to Parts 41 and 61 of the Civil Air Regulations specifying the minimum recent experience a flight radio operator is required to have before he may serve in air carrier operation.

A proposal to amend was originally published in the *FEDERAL REGISTER* on May 1, 1947, requiring that the airman demonstrate his competency to the Administrator or his designee.

After further considering this proposal, the Safety Bureau has concluded that it would be preferable to place the responsibility of checking the airman, on the carrier rather than on the Administrator. The Safety Bureau plans, there-

fore, to present to the Board the proposed amendments hereinafter set forth. Any substantial objections to the proposal will be brought to the attention of the Board.

The proposed amendment is as follows:

*Qualification for duty.* An airman shall not serve as a flight radio operator unless, within the preceding 12-month period, he has had at least 4 months of satisfactory experience as a radiotelegraph operator and 25 hours of experience in the operation of aircraft radio during flight; or until the air carrier has checked the airman and determined that he is (1) familiar with all current radio information pertaining to the routes to be flown, and (2) is competent with respect to the operating procedures and radio equipment to be used.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 15 days from the date of this public notice.

##### AIR CARRIER NAVIGATORS

##### MINIMUM RECENT EXPERIENCE REQUIREMENTS

JULY 17, 1947.

The Safety Bureau of the Civil Aeronautics Board is presenting proposed amendments to Parts 41 and 61 of the Civil Air Regulations specifying the minimum recent experience a flight navigator is required to have before he may serve in air-carrier operation.

A proposal to amend was originally published in the *FEDERAL REGISTER* on May 1, 1947, requiring that the airman demonstrate his competency to the Administrator or his designee.

After further considering this proposal, the Safety Bureau has concluded that it would be preferable to place the responsibility of checking the airman, on the air carrier rather than on the Administrator. The Safety Bureau plans, therefore, to present to the Board the proposed amendments hereinafter set forth. Any substantial objections to the proposal will be brought to the attention of the Board.

The proposed amendment is as follows:

*Qualifications for duty.* An airman shall not serve as a flight navigator unless he has served in that capacity for at least 50 hours within the preceding 12-month period; or until the air carrier has checked the airman and determined

that he is (1) familiar with all current navigational information pertaining to the routes to be flown, and (2) is competent with respect to the operating procedures and navigational equipment to be used.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 15 days from the date of this public notice.

##### AIR CARRIER FLIGHT ENGINEERS

##### MINIMUM RECENT EXPERIENCE REQUIREMENTS

JULY 17, 1947.

The Safety Bureau of the Civil Aeronautics Board is presenting proposed amendments to Parts 41 and 61 of the Civil Air Regulations specifying the minimum recent experience a flight engineer is required to have before he may serve in air carrier operation.

A proposal to amend was originally published in the *FEDERAL REGISTER* on June 3, 1947, requiring that the airman demonstrate his competency to the Administrator or his designee.

After further considering this proposal, the Safety Bureau has concluded that it would be preferable to place the responsibility of checking the airman, on the air carrier rather than on the Administrator. The Safety Bureau plans, therefore, to present to the Board the proposed amendments hereinafter set forth. Any substantial objections to the proposal will be brought to the attention of the Board.

The proposed amendment is as follows:

*Qualification for duty.* An airman shall not serve as a flight engineer unless, within the preceding 12-month period, he has had at least 50 hours of experience as a flight engineer on the make and model aircraft on which he is to serve; or until the air carrier has checked the airman and determined that he is (1) familiar with all current information and operating procedures relating to the make and model aircraft to which he is to be assigned, and (2) is competent with respect to such aircraft.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washing-

ton 25, D. C., for receipt within 15 days from the date of this public notice.

##### TAKE-OFF LIMITATIONS TO PROVIDE FOR ENGINE FAILURE

JULY 18, 1947.

Notice is hereby given that the Civil Aeronautics Board has under considera-

tion proposed amendments to Parts 41 and 61 of the Civil Air Regulations which will require that any gradient of the take-off surface shall be taken into account when computing the take-off limitations of aircraft certificated under the transport category.

Parts 41 and 61 now require that in applying take-off requirements to aircraft certificated under the transport category, a correction shall be made for any appreciable gradient of the take-off surface. Since the word "appreciable" has no defined limits, this may under certain conditions constitute a hazard to safety in that the gradient may not always be taken into consideration when establishing take-off limitations.

It is proposed to amend §§ 41.271 (c) and 61.7122 (c) as follows:

1. By striking the word "appreciable" from the first sentence of § 41.271 (c)

2. By striking the word "appreciable" from the first sentence of § 61.7122 (c).

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Board that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C., for receipt by July 31, 1947.

### Bureau of Reclamation

[Public Notice No. 55]

#### SHOSHONE IRRIGATION PROJECT, HEART MOUNTAIN DIVISION (PART II), WYOMING

#### PUBLIC NOTICE ANNOUNCING AVAILABILITY OF WATER FOR PUBLIC AN STATE LANDS AND OPENING OF PUBLIC LANDS FOR ENTRY

1. *Land for which water will be furnished.* Pursuant to the act of June 17, 1902 (32 Stat. 388) as amended and supplemented, herein called the Federal Reclamation Law, announcement is hereby made that water will be available

as of April 1, 1948, for certain irrigable lands under the Heart Mountain Division of the Shoshone Irrigation Project, Wyoming, and that beginning at 2:00 p. m., July 24, 1947, entry may be made in accordance with this public notice for the public land described hereunder. Water will be made available under the provisions of the Federal Reclamation Law and in accordance with the terms, conditions, and charges herein provided. The irrigable lands for which water is to be made available are shown on the farm unit plats for Townships 53, 54, and 55 North, Ranges 100, 101, and 102 West, Sixth Principal Meridian, Wyoming. These lands are described as follows:

#### State lands:

The following described sections and tracts are so-called school section lands. After the date hereof, water will be available therefor and the construction charges allocated to them will be repaid under the same terms and conditions as announced for the other lands covered by this notice upon water rental applications being properly executed and water rental payments made as required hereby:

Tract	Description	Irrigable area (acres)
48	Township 55 North, Range 101 West	
	NE $\frac{1}{4}$ NE $\frac{1}{4}$	25.70
	SE $\frac{1}{4}$ NE $\frac{1}{4}$	32.23
	NE $\frac{1}{4}$ SE $\frac{1}{4}$	20.07

The farm unit plats referred to above have been approved and are on file in the Office of the Superintendent, Bureau of Reclamation, Powell, Wyoming, and in the District Land Office at Cheyenne, Wyoming.

2. *Limit of acreage for which entry may be made or water secured.* The limit of area of public land per entry, representing the acreage which, in the

opinion of the Secretary of the Interior, may be reasonably required for the support of a family upon such lands, is fixed in the amounts shown upon the farm unit plats for the respective farm units listed above. The maximum area for which water may be secured for lands in private ownership shall be 160 acres of irrigable land for each landowner. No one can at the same time hold and obtain water rights on a Federal Reclamation Project for both a farm unit of public land and a tract of privately-owned land unless the installations on the water right, either for the farm unit or for the private lands, not exceeding 160 acres, have been paid in full. Until State lands pass to private ownership, water may be secured for such lands on a rental basis.

3. *Application for public lands.* An application for a farm unit listed in this notice must be filed with the Superintendent, Bureau of Reclamation, Powell, Wyoming, if the applicant desires to qualify under the terms of this no-

tice. No advantage will accrue to an applicant presenting his application in person. All applications received prior to 2:00 p. m., October 22, 1947, will be treated as simultaneously filed. Applications for a farm unit received after 2:00 p. m., October 22, 1947, will be considered only as provided in subparagraph (f) (5) of this notice.

(a) *Preference rights of veterans of World War II.* Pursuant to the provisions of the act of Congress of September 27, 1944 (58 Stat. 747) as amended by the acts of June 25, 1946 (Pub. Law 440, 79th Cong.) and May 31, 1947 (Pub. Law 82, 80th Congress) a preference right of application for a period of ninety days will be given to any person, including a person under 21 years of age, who has served in the military or naval forces of the United States for a period of at least ninety days at any time on or after September 16, 1940, and prior to the termination of the present war and who is honorably discharged and

who makes homestead entry subsequent to such discharge. Such preference right extends to the spouse or in case of death or marriage to the guardian of the minor orphan children of (1) any person who has died as a result of wounds received or disability incurred in line of duty while serving in the military or naval forces of the United States at any time on or after September 16, 1940, and prior to the termination of the present war or (2) any person who, prior to his or her death, had the qualifications set forth in the first sentence of this subparagraph and would have been entitled to a preference right of application had he or she lived.

(1) An honorable discharge within the meaning of the act of September 27, 1944 (58 Stat. 747) as amended, shall mean (a) the separation of the veteran from the service by means of an honorable discharge or a discharge under honorable conditions, (b) the transfer of the veteran from active duty to a reserve or retired status prior to the termination of the war or (c) the ending of the period of the veteran's war service by reason of termination of the war, even though the veteran remains in the military or naval service.

(2) All applicants are required to answer fully Question 1, on the Farm Application Blank, and, if claiming veterans' preference, must attach thereto a photostatic, certified or authenticated copy of an official document of his respective branch of military or naval service which clearly indicates an honorable discharge as described in subsection (1) of this paragraph (a).

(3) Applicants entitled to veterans' preference must satisfy all requirements of entrymen set forth in this notice. They will be rated as prescribed in subparagraph (e) and, if found eligible, will be listed on a preference register in the order of their ratings.

(4) For the purpose of this notice the ninety-day preference right of application for veterans of World War II shall begin with the day lands described herein are opened for entry at 2:00 p. m., July 24, 1947, and continue until the close of the simultaneous filing period, 2:00 p. m., October 22, 1947. Applicants for farm units who do not claim or establish such veterans' preference will not be rated until it is evident that sufficient qualified applicants, who have veterans' preference rights and who have filed application not later than 2:00 p. m., October 22, 1947, are not available to enter all the farm units listed in this notice. Non-preference applicants, if and when rated, will be listed on a non-preference register in the order of their rating. When the preference register has been fully cleared by awards of farm units or withdrawal of applicants or both, awards will be made to applicants on the non-preference register in the manner described in subparagraph (f) (5).

(b) *How to file an application for a farm unit.* Farm Application Blanks on which to make application for a farm unit under this notice may be secured from the Superintendent, Bureau of Reclamation, Powell, Wyoming; the Regional Director, Bureau of Reclamation,

Billings, Montana; or the Commissioner, Bureau of Reclamation, Washington, D. C. The first paragraph of the application blank has spaces for the description of farm units for which the applicant wishes to be considered in the event he qualifies for the award of a unit. These blanks need not be filled in until the applicant is called for personal interview as prescribed in subparagraph f. However, he must set forth his preference prior to the interview. During the period set for personal interview, but before the actual interview, the Board will permit the applicant to fill in or change the description of the units which he elects after the applicant has had opportunity to make personal inspection of the farm units. If the Board deems it advisable, it may require the applicant to list, on a suitable form, all the units for which he wishes to be considered in the order of preference and sign a statement to the effect that he does not desire to be considered for any unit not listed. No advantage will accrue to an applicant who inspects the units elected prior to filing application, although each successful applicant must personally inspect the unit awarded prior to filing homestead entry with the District Land Office of the Bureau of Land Management. The choice of the applicant will be given full consideration. Except for the description of farm units in the first paragraph, all other questions on the farm application blank must be fully answered. Irrespective of any preference established under subparagraph (a), there must be strict compliance with the provisions of subparagraph (e).

(c) *Applicants must be qualified.* No entry shall be accepted or allowed by the Register of the District Land Office until the applicant therefor has satisfied the Examining Board appointed as set forth in subparagraph d below, that he is possessed of qualifications of industry, experience, character, and capital, as set forth in subparagraph (e). These qualifications are in addition to those required under the homestead laws. A statement of the qualifications required by the homestead laws may be secured from the District Land Office at Cheyenne, Wyoming, or from the Bureau of Land Management, Washington, D. C.

(d) *Examining Board.* An Examining Board of three members has been approved by the Commissioner of the Bureau of Reclamation to establish qualifications and consider the fitness of each applicant to undertake the development and operation of a farm. If found necessary, the Commissioner reserves the right to appoint additional or alternate members not to exceed a total of five. The Project Superintendent, who is a member of this Board representing the United States, will act as secretary. The statements made by applicants in their farm applications, as corroborated by the persons named as references therein, shall be used by the Board as the basis for determining the relative standing of applicants under subparagraph (e) below. Careful investigations will be made to verify the statements and representations made by applicants both on the farm application blanks and in the course

of personal interviews, to the end that no misunderstanding may prevail either regarding the applicant's fitness or his appreciation of the problem before him. Any falsification or fraudulent representation made or discovered at any time will cause an application to be rejected. The Board is authorized to make rules incident to carrying out the provisions of this Public Notice with respect to rating and selection of applicants, and to establish the time for personal interviews. The Board will rate applicants according to standards described in subparagraph (e) and award public land units to successful applicants as set forth in subparagraph (f).

(e) *Determination of relative standing of applicants.* To determine whether an applicant for a farm unit is qualified under the provisions of subsection C of Section 4 of the Act of December 5, 1924 (43 Stat. 702), he will be rated and examined. The relative standings of the applicants will be based upon percentage rating with the following maximum weights given to the four prescribed qualifications:

	Percent
I. Character .....	10
II. Industry .....	20
III. Capital .....	35
IV. Farm Experience.....	35

Applicants for a farm unit will be rated for each of the above four qualifications according to the following schedules, and no applicants will be considered eligible who fall below the minimum named in any one of the headings of these schedules:

	Percent
I. Character:	
(a) Fair.....	4 (minimum)
(b) Good.....	5 to 7
(c) Excellent.....	8 to 10
II. Industry:	
(a) Fair.....	5 (minimum)
(b) Good.....	6 to 10
(c) Excellent.....	11 to 20
III. Capital:	
(a) \$1,000 to \$1,499..	20 (minimum) to 24
(b) \$1,500 to \$1,999..	25 to 29
(c) \$2,000 to \$2,499..	30 to 34
(d) \$2,500 or above..	35 (maximum)
(e) One to four percent may be added to items (a), (b), or (c) for guaranteed credit of from \$1,000 to \$4,000: Provided—that the total percentage allowed for capital shall not exceed 35 percent. The credit must be suitable for the establishment of an economically sound farming operation.	

NOTE: The minimum capital requirement of \$1,000 set forth in (a) above must be assets owned by the applicant and credit may not be substituted therefor.

	Percent
IV. Farm experience:	
(a) 2 years of work as a farmer's son after the age of 12 years or as a farm operator or farm hand after the age of 15 years.....	20
(b) Each additional year's work as farm hand, farmer's son or farm operator .....	5
(c) Each year of agricultural training in college, or technical experience in field of agriculture, if deemed by the Board to be equivalent to farm experience.....	2½

NOTE: Item (a) is the minimum required for all applicants. The total percent allowed for items (a), (b), and (c), shall not exceed 35%. Farm experience must be of such nature as in the judgment of the Board will qualify the applicant to undertake the

development and operation of an irrigated farm by modern methods.

V. Although no rating is provided for the physical condition of the applicant, he must be in such physical condition as to permit satisfactory farm operation. If physically handicapped or afflicted with ailments making the condition questionable, a detailed statement by an examining physician should accompany the application. The examining board will determine from the individual's application blank and from a personal interview, should he be one of those applicants selected as set forth in subparagraph f (4) below, whether the applicant is physically able to operate a farm and shall disqualify him if facts are such as to warrant such disqualification.

(f) *Showing of applicants and selection thereof.* In conformity with the following method, farm units listed in this Public Notice will be awarded by the Board as follows:

(1) Each applicant qualifying for veteran's preference under the act of September 27, 1944 (58 Stat. 747) as amended, who satisfies the minimum requirements set forth in subparagraph (e) shall be given a preliminary rating based upon the showing made by his farm application blank. He will be listed on a preference register in the order of his rating. Applicants who do not fulfill the minimum requirements will be so notified by registered mail with return receipt demanded.

(2) As soon as possible after October 22, 1947, the Examining Board shall select from the preference register referred to in subparagraph (f) (1) above, 62 applicants, in the order of their rating. If the preliminary rating of any remaining applicants is the same as the last selected applicant, the Board will add the names of such additional applicants with the same rating to the list of 62 to participate in the drawing set forth in subparagraph (f) (3) below. Immediately following the selection of this group of 62 or more persons, all other applicants remaining on the preference register shall be notified by registered mail, with return receipt demanded, of their standing. Each such applicant shall also be notified that since the number of qualified applicants exceeds the number of available farms, his application must be suspended and held for further consideration as provided in this notice.

(3) The Board, in a suitable and impartial manner, shall then conduct a drawing of the names of all applicants selected as set forth in subparagraph (f) (2) above; entering their names on a priority list in the order drawn.

(4) The Board shall then call the first 31 applicants for personal interviews, advising each applicant of his standing on the priority list as established by the drawing. He shall be advised of the probability that he will be certified as an entryman, with priority of award in the order drawn if the interview is satisfactory. Ordinarily the applicant will be certified as an entryman after the interview unless he fails to substantiate his showing on the farm application blank or he fails to elect one of the farm units remaining available after higher priority awards have been made. If the

interview is satisfactory and the applicant is next on the list to receive a farm unit, the first unit on his preference list established as provided in subparagraph (b) above which is available will be awarded to him. If applicants higher on the priority list remain to be interviewed, definite allocation of a farm unit will be held in abeyance until all such prior award applicants have been allocated farm units. If any applicant is disqualified as set forth in paragraph 3 (e) his name shall be removed from the priority list and the preference register and other applicants on the priority list moved up in the order of their drawing. If any applicant is reduced below the lowest rating of the 62 or more applicants selected to participate in the drawing, his name shall be removed from the priority list and his position on the preference register adjusted in accordance with his revised rating. Additional applicants beyond the first 31, in the order of drawing, shall immediately be called for interview. To avoid the necessity of an applicant making a long journey without a reasonable assurance that he will receive a farm unit, no more applicants shall be called for interviews than there are units available. If the available farm units are all allocated before the names of all applicants on the priority list as provided in subparagraph (f) (3) are exhausted, each remaining applicant shall be notified by registered mail, with return receipt demanded, that all farm units to be opened have been allocated and that his application must be held for rejection. He will, however, retain his place on the priority list for further consideration should any units become available through failure of the entryman to complete his transaction, as provided in paragraph (h) below.

(5) Should the applicants on the priority list be exhausted before the available farm units are allotted, the selection process shall be repeated with the next highest rated group as outlined in subparagraph (f) (2) (3) and (4), immediately above. Should any farm units remain available when the preference register is exhausted, applications of persons who do not have veterans' preference and whose applications were filed prior to 2:00 p. m., October 22, 1947, will be considered as outlined in subparagraphs (f) (2) (3) and (4) immediately above. Should any farm units remain available after all applications filed before 2:00 p. m., October 22, 1947, have been considered, applications received after 2:00 p. m., October 22, 1947, will be considered in the order filed.

(6) Each action of the Board with respect to any individual applicant as provided in this subparagraph (f) is subject to appeal to the Director of Region 6, Bureau of Reclamation, Billings, Montana. Such appeals must be filed in the office of the Project Superintendent, Powell, Wyoming, within 15 days of receipt of notice of any action of the Board with respect to his application. The Superintendent will forward such appeals promptly to the Regional Director.

(g) *Notification of applicants.* (1) The decision of the Board as to the selec-

tion of successful applicants and the award of farm units shall be reduced to writing and a copy forwarded to the successful applicant, with return receipt requested. With such notice, the Board shall enclose statement of the minimum water charges due on the farm awarded and water-rental applications. Payment of the minimum water charges and such properly executed water-rental application must be in the office of the Bureau of Reclamation, Powell, Wyoming, within 15 days of receipt of the notice of award. Upon receipt by the Superintendent of the payment of minimum water charges, together with the executed water-rental application, within the period specified, the Secretary of the Examining Board will furnish each such applicant a certificate stating that his qualifications to enter public lands, as required by subsection C of section 4 of the act of December 5, 1924 (43 Stat. 702) have been passed upon and approved by that Board. Such certificate may be delivered personally or by registered mail, but in either case a proper acknowledgment of receipt must be secured. Such certificate must be attached by the applicant to his homestead application when he files such application at the District Land Office at Cheyenne, Wyoming. Such homestead application shall be filed within 30 days from the date of the receipt by the applicant of said certificate. Upon return of receipt indicating applicant has received above certificate, the Secretary of the Examining Board will indicate upon a copy thereof the time upon which the 30-day period for filing homestead application expires and forward same to the District Land Office.

(2) After all farm units have been entered, all applicants whose applications have not been previously rejected will be notified that the farm units listed in Public Notice No. 55 have been entered and all pending applications therefore are held for rejection.

(h) *Failure of selected applicant to complete transaction.* Failure of the selected applicant to pay the water charge or to make homestead application, or to execute and file any required water-rental application, within the time herein or hereafter specified, shall disqualify the applicant and entitle the Board to cancel the award of his farm unit and to award the same farm unit to another applicant selected in the manner prescribed in subparagraph (f).

(i) *Warning against unlawful settlement.* No person shall be permitted to gain or exercise any right under any settlement or occupation of any of the public lands covered by this notice except under the terms and conditions prescribed by this notice, *Provided, however* That this shall not affect any valid existing right obtained by settlement or entry while the land was subject thereto.

(j) *Oil and gas lease.* Certain of the farm units are covered in whole or in part by oil and gas leases executed through the Bureau of Land Management under the act of February 25, 1920 (41 Stat. 437) as amended. Detailed information concerning these leases may be secured at the Bureau of Land Man-

agement, Washington, D. C., or at the District Land Office, Cheyenne, Wyoming.

(k) *Reservation of rights-of-way for County, State and Federal highways and access roads.* Rights-of-way are reserved for County, State, and Federal highways and access roads to the farm units shown on said plats along section lines and other lines shown in red on the farm plats, said rights-of-way being in general 30 feet in width on each side of said lines for county roads, 20 feet each side of said lines for access roads, and either 40 feet or 50 feet each side of said lines for State and Federal highways.

(l) *Reservation of rights-of-way for telephone, electric transmission, water and sewer lines and water treating and pumping plants.* Rights-of-way are reserved for Government-owned telephone, electric transmission, water and sewer lines and water treating and pumping plants, as now constructed, and the Secretary reserves the right to locate such other Government-owned facilities over and across the farm units above described, as hereafter in his opinion may be necessary for the proper construction, operation or maintenance of said project.

(m) *Waiver of mineral rights.* All homestead entries for any of the above-described farm units will be subject to the laws of the United States governing mineral land, and all homestead applicants under this notice must waive the right to the mineral content of the land, if required to do so by the Land Office; otherwise, the homestead application will be rejected or the homestead entry cancelled.

4. *Application for delivery of water to State lands.* Blanks on which to make water-rental application for the State lands described in paragraph 1, may be secured from the Superintendent, Bureau of Reclamation, Powell, Wyoming; the Regional Director, Bureau of Reclamation, Billings, Montana; or the Commissioner, Bureau of Reclamation, Washington, D. C., and shall be filed on or after October 1, 1947.

5. *Charges payable by all water users.* The Reclamation Law provides that except during a "development period" fixed by the Secretary of the Interior water may not be delivered for the irrigation of lands until an organization, satisfactory in form and powers to the Secretary, has entered into a contract with the United States providing for the repayment of the project construction costs which are allocated to such irrigated lands. Pursuant to section 2 (j) and 7 (b) of the Reclamation Project Act of 1939, lands described in paragraph 1 of this Public Notice are hereby designated a development unit. The development period for the lands so designated is fixed at a period of six years from and including the first year in which water is delivered; provided, that such period may be extended by Supplemental Notice should the Secretary determine that further time is reasonably necessary to bring such lands under irrigation. All lands described in paragraph 1 must, therefore, be included within an organization of the type described and such organization must execute a contract covering the repayment of the construction costs allocated to such lands before the end of the development period.

(a) *Charges payable before execution of the repayment contract.* (1) The minimum water charge for 1948 and thereafter until further notice, shall be one dollar and seventy-five cents (\$1.75) per acre for each irrigable acre of land. This charge is due and payable in advance on or before January 1, of the year in which water is to be delivered. Payment of this charge will entitle the entryman or landowner to a farm delivery of 2 acre-feet of water per irrigable acre for each irrigation season.

(2) Additional water will be furnished during the 1948 irrigation season and thereafter until further notice at the rate of seventy-five cents (\$0.75) per acre-foot for the third acre-foot per irrigable acre and one dollar and twenty-five cents (\$1.25) per acre-foot for each additional acre-foot per irrigable acre thereafter. Charges for the additional water are to be paid on or before December 1, of the year in which used. No water shall be delivered to the water user in subsequent years until all such charges have been paid in full.

(3) In the event any applicant does not receive notice of the award of a farm unit until after July 1, 1948, or July 1 of any subsequent year, the entryman's payment of charges under this subparagraph shall be applied to payment of water charges for the succeeding year.

(4) The foregoing charges are subject to all provisions of the Federal Reclamation Law relative to collections and penalties for delinquencies. The charges will be paid at the office of the Bureau of Reclamation, Powell, Wyoming.

(b) *Charges payable after execution of the repayment contract.* These charges will be paid by the water users in accordance with the terms of the repayment contract. They will include an annual charge per acre to meet operation and maintenance costs and to repay to the Government that portion of the construction costs allocated to the Heart Mountain Division. On the date of issue of this Public Notice, it is impracticable to determine (1) the total construction cost of the Heart Mountain Division distributary system; (2) the allocation of costs to the Heart Mountain Division of the Shoshone Federal Reclamation Project; and (3) the ultimate water-service area of the Division. Accordingly, no exact statement as to the total and per acre construction charge to be made against lands opened in this Public Notice is practicable. However, total estimated construction costs of the Heart Mountain Division is \$6,900,000. When the total construction charge has been determined and allocated by the Secretary of the Interior, and a repayment contract negotiated with the irrigation district, a supplementary notice announcing the total and per acre charges will be issued.

6. *Settler assistance in land development.* The Bureau of Reclamation, as an incident to the completion of the project, will assist entrymen, in appropriate cases, on a reimbursable basis, in development of farm units, including clearing and rough leveling the land and roughing in of farm irrigation and sur-

face drainage systems beyond the farm turnout.

## FEDERAL POWER COMMISSION

[Project 1971]

IDAHO POWER Co.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

JULY 17, 1947.

Public notice is hereby given pursuant to the provisions of the Federal Power Act (16 U. S. C. 791-825r) that Idaho Power Company of Boise, Idaho, has made application for preliminary permit for major Project No. 1971 (known as "Oxbow development") to be located on

Snake River and on lands of the United States in Baker County, Oregon, and Adams and Washington Counties, Idaho. The proposed project is to consist of a concrete dam across Snake River at the Oxbow site approximately 4 miles in a southerly direction from Homestead, Oregon, creating a reservoir about 11 miles long with an area of about 1,000 acres; two tunnels, one of which would be an existing tunnel enlarged, through the Oxbow to the powerhouse site; a powerhouse with installed capacity of approximately 140,000 kilowatts in four units at the outlet of the tunnels on the Oregon bank of the river about 3 miles downstream from the dam; and appurtenant facilities. The proposed project is to replace an existing power plant at the Oxbow site.

Any protest against the approval of this application or request for hearing thereon, with reasons for such protest or request, and the name and address of the party or parties so protesting or requesting, should be submitted before August 22, 1947, to the Federal Power Commission at Washington, D. C.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1448]

IOWA-ILLINOIS GAS AND ELECTRIC CO. AND  
UNITED LIGHT AND RAILWAYS CO.

### SUPPLEMENTAL ORDER PERMITTING APPLICATION AND DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 16th day of July 1947.

Iowa-Illinois Gas and Electric Company ("Iowa-Illinois") and its parent, The United Light and Railways Company ("Railways") a registered holding company, having filed a joint application and declaration and amendments thereto pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder regarding (1) the issuance and sale at competitive bidding by Iowa-Illinois of \$22,000,000 principal amount of First Mortgage Bonds, due 1977 and the issuance and sale by Iowa-Illinois and the purchase by Railways of 35,000 additional authorized but unissued shares of common stock of Iowa-Illinois having a par value of \$100 per share for a cash consideration of \$3,500,000; and

Iowa-Illinois and Railways having requested that our order conform to the requirements of sections 371 (b) 371 (f), 373 (a) and 1808 (f) of the Internal Revenue Code, as amended, in respect to the expenditure by Railways of the net cash proceeds (\$274,095.73) of the sale in 1946 of 2,436 shares of 5% Cumulative Convertible Preferred Stock of International Paper Company to pay a portion of the purchase price of the 35,000 shares of common stock of Iowa-Illinois and in

respect of the issuance by Iowa-Illinois of the common shares to be purchased thereby; and

The Commission having by order dated July 2, 1947, granted said application, as amended, and permitted said declaration, as amended, to become effective subject to the terms and conditions prescribed in Rule U-24 and to the further condition that the proposed transactions shall not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, jurisdiction having been reserved for this purpose; and

Iowa-Illinois and Railways having filed a further amendment to said application and declaration setting forth the action taken by Iowa-Illinois to comply with the requirements of Rule U-50 and showing that pursuant to the invitation for competitive bids, five groups of bidders have submitted bids for the bonds as follows:

Bidding group headed by—	Price to company	Interest rate	Cost to company
The First Boston Corp. ....	100.779	2.75	2.712
Harris Hall & Co. (Inc.) .....	100.723	2.75	2.713
Blyth & Co., Inc. ....	100.823	2.75	2.724
Halsey, Stuart & Co., Inc. ....	100.423	2.75	2.753
Glore, Forgan & Co. ....	100.321	2.75	2.733

Said amendment having further set forth that Iowa-Illinois has accepted the bid of the group headed by The First Boston Corporation for the First Mortgage Bonds as set out above and that such bonds will be offered for sale to the public at a price of 101.4% of the principal amount thereof plus accrued interest from March 1, 1947 to the date of delivery resulting in an underwriters spread of .621% of the principal amount of the bonds; and

The Commission having examined the record in the light of said amendment and finding no basis for imposing terms and conditions with respect to the price to be paid for said bonds, the redemption prices thereof, the interest rate thereon, and the underwriters spread and its allocation with respect to the bonds;

It is ordered effective forthwith, That said application and declaration, as amended, be and the same hereby is granted and permitted to become effective, respectively, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered and recited, In view of the requirements of sections 371 (b) 371 (f) 373 (a) and 1808 (f) of the Internal Revenue Code, as amended, that the following transactions proposed in the aforesaid application and declaration, as amended, are necessary or appropriate to the integration or simplification of the holding company system of which Railways and Iowa-Illinois are members and necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, 49 Stat. 820 (U. S. C., Title 15, sec. 79K (b)) and that the following transactions be consummated within the time required by Rule U-24 of

the general rules and regulations under the Public Utility Holding Company Act of 1935:

1. The expenditure by Railways of the entire net cash proceeds in the amount of \$274,095.73, received by it from the sale during 1946, pursuant to prior orders of the Commission, of 2,436 shares of \$100 par value 5% Cumulative Convertible Preferred Stock of International Paper Company, for the purchase of common shares of Iowa-Illinois of the par value of \$100 per share at the price of \$100 per share; and

2. The issuance by Iowa-Illinois of the common shares so to be purchased.

SOUTHERN NATURAL GAS CO. AND FEDERAL  
WATER AND GAS CORP.

### ORDER MODIFYING CONDITION AND GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 16th day of July A. D. 1947.

Southern Natural Gas Company ("Southern Natural"), a registered holding company and a subsidiary of Federal Water and Gas Corporation ("Federal") a registered holding company, and Federal, having heretofore filed, respectively, a declaration and an application pursuant to sections 12 (f) and 10 of the Public Utility Holding Company Act of 1935, and Rules U-23 and U-43 promulgated thereunder, with respect to the payment by Southern Natural to its common stockholders of a dividend, consisting of 1,409,212 shares of the common stock of its non-utility subsidiary, Southern Production Company, Inc. ("Production") on the basis of one share of the common stock of Production for each share of the common stock of Southern Natural, and the acquisition by Federal, as the owner of 765,022 shares of Southern Natural's common stock, of a like number of the common shares of Production; and

The Commission having by order dated May 22, 1947, permitted said declaration to become effective and granted said application subject to the terms and conditions prescribed in Rule U-24, which rule provides in part that, unless otherwise ordered, the proposed transactions be carried out within sixty days of the Commission's order permitting the declaration to become effective and granting the application; and

Southern Natural and Federal having requested that the time within which the transactions set forth in the aforesaid declaration and application may be consummated be extended to July 28, 1947, stating that such extension is necessary by reason of the fact that the aforesaid shares of the common stock of Production are not deliverable to the common stockholders of Southern Natural until said date; and

The Commission having considered said request and deeming it appropriate that it be granted;

*It is ordered*, That the terms and conditions contained in our order of May 22, 1947, be and hereby are modified to the extent necessary to extend the time within which the aforesaid transactions may be consummated to July 28, 1947.

By the Commission.

INTERSTATE POWER CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 15th day of July A. D. 1947.

Interstate Power Company ("Interstate") a registered holding company, having filed a declaration pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 and 7 thereof, regarding the following transactions:

1. The issue and sale, on or before August 1, 1947, of two Collateral Promissory Notes, each in the principal amount of \$550,000, bearing interest at the rate of 2% per annum and maturing December 1, 1947, one of said notes to be sold to The Chase National Bank of the City of New York ("Chase") and the other to Manufacturers Trust Company, New York ("Manufacturers")

2. The issue and pledge as collateral security for the aforesaid notes of \$1,100,000 principal amount of Interstate's First Mortgage Bonds, 5% Series, due 1957.

3. The issue and sale, on or before October 15, 1947, of two Collateral Promissory Notes, each in the principal amount of \$250,000, bearing interest at a rate not exceeding 2% per annum and maturing on December 1, 1947; one of said notes to be sold to Chase, and the other to Manufacturers.

4. In the event that Interstate's plan of reorganization (which was approved by the Commission on January 24, 1947 pursuant to section 11 (e) of the act and by the District Court of the United States for the District of Delaware on April 24, 1947) is not consummated prior to the issuance of said \$500,000 principal amount of notes specified in paragraph 3 above, the issue and pledge, as collateral for said notes, of \$500,000 principal amount of Interstate's First Mortgage Bonds, 5% Series, due 1957;

5. If the aforesaid reorganization plan is consummated prior to the maturity date, December 1, 1947, of the aforesaid aggregate \$1,600,000 principal amount of notes, the issue and sale of two promissory notes, ("refunding notes") each in the principal amount of \$800,000 and maturing no more than one year from the date of issue and bearing interest at a rate not exceeding 2% per annum, one

of said notes to be sold to Chase, and the other to Manufacturers. Said notes are either to be unsecured, or if unsecured loans cannot be obtained, to be secured by the pledge, at the earliest date practicable after issuance of said notes, consistent with the provisions of Interstate's proposed Indenture and First Supplemental Indenture, to be dated as of June 1, 1947, of an equal aggregate principal amount of First Mortgage Bonds, -----% Series, due 1977, to be issued under said indenture. Said issue and sale of refunding notes will be for the purpose of permitting the repayment of the aforesaid aggregate \$1,600,000 principal amount of Collateral Promissory Notes. It is represented that said aggregate \$1,600,000 principal amount of refunding notes will be retired, after consummation of said plan of reorganization, through permanent financing as soon as Interstate considers such permanent financing feasible.

The declaration states that the proceeds from the proposed issue and sale of \$1,600,000 principal amount of Collateral Promissory Notes will be applied toward the financing of Interstate's construction program. The declaration states further that by reason of credits which it will have in its account with the Corporate Trustee under the indenture securing its First Mortgage Bonds, 5% Series, due 1957, based on property additions, Interstate will be entitled to the authentication and delivery by said trustee, prior to July 15, 1947, of \$1,100,000 principal amount of additional 5% bonds, and will be entitled, by reason of similar credits, to the authentication and delivery by said trustee, prior to October 15, 1947, of an additional \$500,000 principal amount of said bonds. Interstate further represents that since property additions, as defined in the proposed Indenture and First Supplemental Indenture to be dated as of June 1, 1947, made subsequent to December 31, 1946, will be fundable, Interstate will be entitled under the provisions of said indenture, on the basis of property additions made subsequent to December 31, 1946, to the authentication and delivery by the Corporate Trustee under said indenture of \$1,600,000 principal amount of First Mortgage Bonds, -----% Series, due 1977, at the time of the consummation of said reorganization plan, in case it is necessary to issue said bonds as collateral security as outlined in paragraph 5 above.

Said declaration having been filed on June 16, 1947 and notice of such filing having been duly given in the manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing thereon within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

Interstate having requested that the Commission take appropriate action to accelerate its order herein and that said order become effective forthwith, and the Commission deeming it appropriate to grant such request; and

The Commission finding with respect to said declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and that no adverse findings are necessary

thereunder, and deeming it appropriate in the public interest and in the interests of investors and consumers that said declaration be permitted to become effective:

*It is hereby ordered*, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

ARKANSAS NATURAL GAS CORP. AND ARKANSAS LOUISIANA GAS CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of July A. D. 1947.

Notice is hereby given that a joint declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Arkansas Natural Gas Corporation ("Arkansas Natural"), a registered holding company, and its subsidiary, Arkansas Louisiana Gas Company ("Arkansas Louisiana") Declarants have designated sections 6 (a), 7 and 12 (b) of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than July 28, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. At any time after July 28, 1947, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration which is on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Arkansas Louisiana proposes to enter into a loan agreement with the Guaranty Trust Company of New York pursuant to which the bank will be obligated to lend Arkansas Louisiana \$11,500,000 on October 15, 1947 and to extend credit for an additional amount of \$2,500,000. Under said agreement Arkansas Louisiana proposes to borrow \$11,500,000 on October 15, 1947 and to issue in evidence therefor its installment promissory note, bearing interest at 2 1/4 % per annum, payable at the rate of

\$500,000 semi-annually to April 15, 1949 and thereafter at the rate of \$625,000 semi-annually to April 15, 1957, the date of the final installment. The remaining \$2,500,000 may be borrowed by Arkansas Louisiana as needed in amounts of \$250,000 or a multiple thereof at any time prior to October 15, 1948, such borrowings to be evidenced by notes which are to bear interest at the rate of 2½% per annum and mature on October 15, 1957. Arkansas Louisiana will pay the bank a commitment fee at the rate of ¼ of 1% per annum on the maximum aggregate amount of loans to be made under the loan agreement (\$14,000,000) from June 19, 1947, the date of the bank's obligation to lend said amount, to October 15, 1947. In addition, Arkansas Louisiana will pay a similar commitment fee on the daily average unused amount of the said \$2,500,000 which the bank is obligated to lend from October 15, 1947 to October 15, 1948.

Arkansas Louisiana proposes to use \$8,875,465 of the net proceeds of the bank loan of \$11,500,000 for the redemption, on October 15, 1947, of its outstanding First Mortgage Bonds in the aggregate principal amount of \$8,700,000 at their respective redemption prices. The remaining balance of said loan, together with the net proceeds of any additional notes, is for the stated purpose of financing the company's construction program.

Arkansas Natural, as the holder of all of the 4½% Sinking Fund Debentures due 1955 in the principal amount of \$6,500,000 issued by Arkansas Louisiana, proposes to enter into an agreement together with Arkansas Louisiana and the Bank providing for the subordination of said Debentures, with respect to payment of principal and interest thereon, to the payment of the notes proposed to be issued under the aforesaid loan agreement in the manner and to the extent set forth in said Subordination Agreement. In connection with the execution of the Subordination Agreement, Arkansas Natural will place upon the aforesaid debentures an appropriate legend.

Fees and expenses, exclusive of commitment fees, have been estimated at \$17,500, of which \$12,500 are for legal fees.

Declarants state that no State commission has jurisdiction over the proposed transactions.

Declarants request that the Commission's Order permitting the declaration become effective forthwith.

By the Commission.
